Eshoo	Hefner	Schiff
Ewing	John	Woolsey

□ 1904

So (two-thirds having voted in favor thereof), the rules were suspended and the Senate bill, as amended, was passed.

The result of the vote was announced as above recorded.

The title of the Senate bill was amended so as to read:

"An Act to provide for the authorization of appropriations in each fiscal year for arbi-

tration in United States district courts, and for other purposes."

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. ESHOO. Mr. Speaker, I was unavoidably delayed and missed votes 416, 417, and 418 because my flight from San Francisco to Washington, United flight 964, was canceled and I had to take a later flight. Had I been present, I would have voted "aye" on 416, "aye" on 417, and "aye" on 418.

RECESS

The SPEAKER pro tempore (Mr. GUTKNECHT). Pursuant to clause 12 of rule I, the Chair declares the House in recess until approximately 9 p.m.

Accordingly (at 7 o'clock and 7 minutes p.m.), the House stood in recess until approximately 9 p.m.

□ 2100

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. GUTKNECHT) at 9 p.m.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2209, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 1998

Mr. SOLOMON, from the Committee on Rules, submitted a privileged report (Rept. No. 105-263) on the resolution (H. Res. 238) waiving points of order against the conference report to accompany the bill (H.R. 2209) making appropriations for the legislative branch for the fiscal year ending September 30, 1998, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2267, DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 1998

Mr. SOLOMON, from the Committee on Rules, submitted a privileged report (Rept. No. 105-264) on the resolution (H. Res. 239) providing for consideration of the bill (H.R. 2267) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1998, and for other purposes, which was referred to the House Calendar and ordered to be printed.

CONFERENCE REPORT ON H.R. 2266, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 1998

Mr. YOUNG of Florida submitted the following conference report and state-

ment on the bill (H.R. 2266) making appropriations for the Department of Defense for the fiscal year ending September 30, 1998, and for other purposes:

CONFERENCE REPORT (H. REPT. 105-265)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2266) "making appropriations for the Department of Defense for the fiscal year ending September 30, 1998, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 1998, for military functions administered by the Department of Defense, and for other purposes, namely:

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), to section 229(b) of the Social Security Act (42 U.S.C. 429(b)), and to the Department of Defense Military Retirement Fund; \$20,452,057,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), to section 229(b) of the Social Security Act (42 U.S.C. 429(b)), and to the Department of Defense Military Retirement Fund; \$16,493,518,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), to section 229(b) of the Social Security Act (42 U.S.C. 429(b)), and to the Department of Defense Military Retirement Fund; \$6,137,899,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42

U.S.C. 402 note), to section 229(b) of the Social Security Act (42 U.S.C. 429(b)), and to the Department of Defense Military Retirement Fund; \$17,102,120,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 10211, 10302, and 3038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$2,032,046,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Navy Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$1,376,601,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$391,770,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 10211, 10305, and 8038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Air Reserve Officers' Training Corps, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$815,915,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 10211, 10302, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$3,333,867,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 10211, 10305, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund; \$1,334,712,000.

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed \$11,437,000, can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes; \$16,754,306,000 and, in addition, \$50,000,000 shall be derived by transfer from the National Defense Stockpile Transaction Fund: Provided, That of the funds appropriated in this paragraph, not less than \$300,000,000 shall be made available only for conventional ammunition care and maintenance.

OPERATION AND MAINTENANCE, NAVY

(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed \$5,500,000, can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes; \$21,617,766,000 and, in addition, \$50,000,000 shall be derived by transfer from the National Defense Stockpile Transaction Fund.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law; \$2,372,635,000.

OPERATION AND MAINTENANCE, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law; and not to exceed \$8,362,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes; \$18,492,883,000 and, in addition, \$50,000,000 shall be derived by transfer from the National Defense Stockpile Transaction Fund.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law; \$10,369,740,000, of which not to exceed \$25,000,000 may be available for the CINC initiative fund account; and of which not to exceed \$28,850,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, in-

cluding training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; \$1,207,891,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; \$921,711,000.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; \$116,366,000.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; \$1,632,030,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft); \$2,419,632,000: Provided, That not later than March 15, 1998, the Director of the Army National Guard shall provide a report to the congressional defense committees identifying the allocation, by installation and activity, of all base operations funds appropriated under this heading.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For operation and maintenance of the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, repair, and other necessary expenses of facilities for the training and administration of the Air National Guard, including repair of facilities, maintenance, operation, and modification of aircraft; transportation of things, hire of passenger motor vehicles; supplies, materials, and equipment, as authorized by law for the Air National Guard; and expenses incident to the maintenance and use of supplies, materials, and equipment, including such as may be furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders

while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau; \$3,013,282,000.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER
FUND

(INCLUDING TRANSFER OF FUNDS)

For expenses directly relating to Overseas Contingency Operations by United States military forces; \$1,884,000,000: Provided, That the Secretary of Defense may transfer these funds only to operation and maintenance accounts within this title, and working capital funds: Provided further, That the funds transferred shall be merged with and shall be available for the same purposes and for the same time period, as the appropriation to which transferred: Provided further, That the transfer authority provided in this paragraph is in addition to any other transfer authority contained elsewhere in this Act.

UNITED STATES COURT OF APPEALS FOR THE
ARMED FORCES

For salaries and expenses necessary for the United States Court of Appeals for the Armed Forces; \$6,952,000, of which not to exceed \$2,500 can be used for official representation purposes.

ENVIRONMENTAL RESTORATION, ARMY

(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$375,337,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Army, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That not more than twenty-five per centum of funds provided under this heading may be obligated for environmental remediation by the Corps of Engineers under total environmental remediation contracts.

ENVIRONMENTAL RESTORATION, NAVY

(INCLUDING TRANSFER OF FUNDS)

For the Department of the Navy, \$275,500,000, to remain available until transferred: Provided, That the Secretary of the Navy shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Navy, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Navy, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

ENVIRONMENTAL RESTORATION, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For the Department of the Air Force, \$376,900,000, to remain available until transferred: Provided, That the Secretary of the Air Force shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Air Force, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Air Force, to

be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

For the Department of Defense, \$26,900,000, to remain available until transferred: Provided, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of Defense, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

ENVIRONMENTAL RESTORATION, FORMERLY USED
DEFENSE SITES

(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$242,300,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris at sites formerly used by the Department of Defense, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC
AID

For expenses relating to the Overseas Humanitarian, Disaster, and Civic Aid programs of the Department of Defense (consisting of the programs provided under sections 401, 402, 404, 2547, and 2551 of title 10, United States Code); \$47,130,000, to remain available until September 30, 1999.

FORMER SOVIET UNION THREAT REDUCTION

For assistance to the republics of the former Soviet Union, including assistance provided by contract or by grants, for facilitating the elimination and the safe and secure transportation and storage of nuclear, chemical and other weapons; for establishing programs to prevent the proliferation of weapons, weapons components, and weapon-related technology and expertise; for programs relating to the training and support of defense and military personnel for demilitarization and protection of weapons, weapons components and weapons technology and expertise; \$382,200,000, to remain available until September 30, 2000: Provided, That of the amounts provided under this heading, \$35,000,000 shall be available only to support the dismantling and disposal of nuclear submarines and submarine reactor components in the Russian Far East: Provided further, That of the amounts provided under this heading, \$5,000,000 shall be available only for the Arctic Military Environmental Cooperation Program.

QUALITY OF LIFE ENHANCEMENTS, DEFENSE

For expenses, not otherwise provided for, resulting from unfunded shortfalls in the repair and maintenance of real property of the Depart-

ment of Defense (including military housing and barracks); \$360,000,000, for the maintenance of real property of the Department of Defense (including minor construction and major maintenance and repair), which shall remain available for obligation until September 30, 1999, as follows:

Army, \$100,000,000;
Navy, \$70,000,000;
Marine Corps, \$45,000,000; and
Air Force, \$145,000,000.

TITLE III

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$1,346,317,000, to remain available for obligation until September 30, 2000.

MISSILE PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$762,409,000, to remain available for obligation until September 30, 2000.

PROCUREMENT OF WEAPONS AND TRACKED
COMBAT VEHICLES, ARMY

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$1,298,707,000, to remain available for obligation until September 30, 2000.

PROCUREMENT OF AMMUNITION, ARMY

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$1,037,202,000, to remain available for obligation until September 30, 2000.

OTHER PROCUREMENT, ARMY

For construction, procurement, production, and modification of vehicles, including tactical, support, and non-tracked combat vehicles; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$2,679,130,000, to remain available for obligation until September 30, 2000.

AIRCRAFT PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; \$6,535,444,000, to remain available for obligation until September 30, 2000.

WEAPONS PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; \$1,102,193,000, to remain available for obligation until September 30, 2000.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$397,547,000, to remain available for obligation until September 30, 2000.

SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof; plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long leadtime components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

For continuation of the SSN-21 attack submarine program, \$153,444,000;

SSN, \$2,314,903,000;

SSN (AP), \$284,859,000;

CVN-77 (AP), \$50,000,000;

CVN Refuelings, \$1,615,003,000;

CVN Refuelings (AP), \$46,855,000;

DDG-51 destroyer program, \$3,411,200,000;

DDG-51 destroyer program (AP), \$157,806,000;

LPD-17 amphibious transport dock ship (AP), \$100,000,000;

Oceanographic ship program (AP), \$16,000,000;

LCAC landing craft air cushion program, \$20,000,000; and

For craft, outfitting, post delivery, conversions, and first destination transportation, \$137,521,000;

In all: \$8,235,591,000, to remain available for obligation until September 30, 2002: Provided, That additional obligations may be incurred after September 30, 2002, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction: Provided further, That none of the funds provided under this heading for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign facilities for the construction of major components of such vessel: Provided further, That none of the funds provided under this heading shall be used for the construction of any naval vessel in foreign shipyards.

OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of not to exceed 194 passenger motor vehicles for replacement only; and the purchase of one vehicle required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$232,340 per vehicle; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; \$3,144,205,000, to remain available for obligation until September 30, 2000.

PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including the purchase of not to exceed 40 passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; \$482,398,000, to remain available for obligation until September 30, 2000.

AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and trans-

portation of things; \$6,480,983,000, to remain available for obligation until September 30, 2000: Provided, That of the funds made available under this heading, \$331,000,000 shall be available for long lead activities related to the procurement of additional B-2 bombers: Provided further, That if the President determines that no additional B-2 bombers should be procured during this fiscal year, and he certifies to the Congress his decision, the funding described in the previous proviso shall be made available to modify and repair the existing fleet of B-2 bombers.

MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; \$2,394,202,000, to remain available for obligation until September 30, 2000.

PROCUREMENT OF AMMUNITION, AIR FORCE

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized by section 2854, title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; \$398,534,000, to remain available for obligation until September 30, 2000.

OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed 196 passenger motor vehicles for replacement only; the purchase of one vehicle required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$232,340 per vehicle; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; \$6,592,909,000, to remain available for obligation until September 30, 2000.

PROCUREMENT, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed 381 passenger motor vehicles for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon

prior to approval of title; reserve plant and Government and contractor-owned equipment lay-away; \$2,106,444,000, to remain available for obligation until September 30, 2000.

NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces; \$653,000,000, to remain available for obligation until September 30, 2000: Provided, That the Chiefs of the Reserve and National Guard components shall, not later than 30 days after the enactment of this Act, individually submit to the congressional defense committees the modernization priority assessment for their respective Reserve or National Guard component.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment; \$5,156,507,000, to remain available for obligation until September 30, 1999.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment; \$8,115,686,000, to remain available for obligation until September 30, 1999: Provided, That funds appropriated in this paragraph which are available for the V-22 may be used to meet unique requirements of the Special Operations Forces.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment; \$14,507,804,000, to remain available for obligation until September 30, 1999: Provided, That of the funds made available in this paragraph, \$4,000,000 shall be only for development of coal-derived jet fuel technologies.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment; \$9,821,760,000, to remain available for obligation until September 30, 1999: Provided, That not less than \$409,898,000 of the funds appropriated in this paragraph shall be made available only for the Sea-Based Wide Area Defense (Navy Upper-Tier) program: Provided further, That funds appropriated for the Dual-Use Applications Program under section 5803 of the Treasury, Postal Service, and General Government Appropriations Act, 1997 (Public Law 104-208), shall remain available for obligation until September 30, 1998.

DEVELOPMENTAL TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, of independent activities of the Director, Test and Evaluation in the direction and supervision of developmental test and evaluation, including performance and joint developmental testing and evaluation; and administrative expenses in connection therewith; \$258,183,000, to remain available for obligation until September 30, 1999.

OPERATIONAL TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, necessary for the independent activities of the Di-

rector, Operational Test and Evaluation in the direction and supervision of operational test and evaluation, including initial operational test and evaluation which is conducted prior to, and in support of, production decisions; joint operational testing and evaluation; and administrative expenses in connection therewith; \$31,384,000, to remain available for obligation until September 30, 1999.

TITLE V

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Funds; \$971,952,000.

NATIONAL DEFENSE SEALIFT FUND

For National Defense Sealift Fund programs, projects, and activities, and for expenses of the National Defense Reserve Fleet, as established by section 11 of the Merchant Ship Sales Act of 1946 (50 U.S.C. App. 1744); \$1,074,948,000, to remain available until expended: Provided, That none of the funds provided in this paragraph shall be used to award a new contract that provides for the acquisition of any of the following major components unless such components are manufactured in the United States: auxiliary equipment, including pumps, for all shipboard services; propulsion system components (that is; engines, reduction gears, and propellers); shipboard cranes; and spreaders for shipboard cranes: Provided further, That the exercise of an option in a contract awarded through the obligation of previously appropriated funds shall not be considered to be the award of a new contract: Provided further, That the Secretary of the military department responsible for such procurement may waive these restrictions on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

TITLE VI

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For expenses, not otherwise provided for, for medical and health care programs of the Department of Defense, as authorized by law; \$10,369,075,000, of which \$10,095,007,000 shall be for Operation and maintenance, of which not to exceed two per centum shall remain available until September 30, 1999, and of which \$274,068,000, to remain available for obligation until September 30, 2000, shall be for Procurement.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

For expenses, not otherwise provided for, necessary for the destruction of the United States stockpile of lethal chemical agents and munitions in accordance with the provisions of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521), and for the destruction of other chemical warfare materials that are not in the chemical weapon stockpile, \$600,700,000, of which \$462,200,000 shall be for Operation and maintenance, \$72,200,000 shall be for Procurement to remain available until September 30, 2000, and \$66,300,000 shall be for Research, development, test and evaluation to remain available until September 30, 1999: Provided, That of the funds available under this heading, \$1,000,000 shall be available until expended each year only for a Johnston Atoll off-island leave program: Provided further, That the Secretaries concerned shall, pursuant to uniform regulations, prescribe travel and transportation allowances for travel by participants in the off-island leave program.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For drug interdiction and counter-drug activities of the Department of Defense, for transfer to appropriations available to the Department of Defense for military personnel of the reserve components serving under the provisions of title 10 and title 32, United States Code; for Operation and maintenance; for Procurement; and for Research, development, test and evaluation; \$712,882,000: Provided, That the funds appropriated under this head shall be available for obligation for the same time period and for the same purpose as the appropriation to which transferred: Provided further, That the transfer authority provided in this paragraph is in addition to any transfer authority contained elsewhere in this Act.

OFFICE OF THE INSPECTOR GENERAL

For expenses and activities of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended; \$138,380,000, of which \$136,580,000 shall be for Operation and maintenance, of which not to exceed \$500,000 is available for emergencies and extraordinary expenses to be expended on the approval or authority of the Inspector General, and payments may be made on his certificate of necessity for confidential military purposes; and of which \$1,800,000, to remain available until September 30, 2000, shall be for Procurement.

TITLE VII

RELATED AGENCIES

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System; \$196,900,000.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Intelligence Community Management Account; \$121,080,000, of which \$39,011,000 for the Advanced Research and Development Committee and the Environmental Intelligence and Applications Program shall remain available until September 30, 1999: Provided, That of the funds appropriated under this heading, \$27,000,000 shall be transferred to the Department of Justice for the National Drug Intelligence Center to support the Department of Defense's counter-drug intelligence responsibilities, and of the said amount, \$1,500,000 for Procurement shall remain available until September 30, 2000, and \$3,000,000 for Research, development, test and evaluation shall remain available until September 30, 1999.

PAYMENT TO KAHOLAWE ISLAND CONVEYANCE, REMEDIATION, AND ENVIRONMENTAL RESTORATION FUND

For payment to Kaho'olawe Island Conveyance, Remediation, and Environmental Restoration Fund, as authorized by law; \$35,000,000, to remain available until expended.

NATIONAL SECURITY EDUCATION TRUST FUND

For the purposes of title VIII of Public Law 102-183, \$2,000,000, to be derived from the National Security Education Trust Fund, to remain available until expended.

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: Provided, That salary increases granted to direct

and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

SEC. 8004. No more than 20 per centum of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

(TRANSFER OF FUNDS)

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$2,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: Provided further, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: Provided further, That of the authority provided under this section, not to exceed \$65,000,000 shall be available to meet requirements for termination of the Reserve Mobilization Insurance Program, notwithstanding chapter 1214 of title 10 of the United States Code.

(TRANSFER OF FUNDS)

SEC. 8006. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds: Provided further, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts

equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8007. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in session in advance to the congressional defense committees.

SEC. 8008. (a) None of the funds provided in this Act shall be available to initiate (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000, or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least thirty days in advance of the proposed contract award: Provided, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: Provided further, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: Provided further, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement.

Funds appropriated in title III of this Act may be used for multiyear procurement contracts as follows:

Apache Longbow radar;
AV-8B aircraft; and
Family of Medium Tactical Vehicles.

(b) None of the funds provided in this Act and hereafter may be used to submit to Congress (or to any committee of Congress) a request for authority to enter into a contract covered by those provisions of subsection (a) that precede the first proviso of that subsection unless—

(1) such request is made as part of the submission of the President's Budget for the United States Government for any fiscal year and is set forth in the Appendix to that budget as part of proposed legislative language for appropriations bills for the next fiscal year; or

(2) such request is formally submitted by the President as a budget amendment; or

(3) the Secretary of Defense makes such request in writing to the congressional defense committees.

SEC. 8009. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported to Congress on September 30 of each year: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical

facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8010. (a) During fiscal year 1998, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(b) The fiscal year 1999 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1999 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 1999.

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8011. Notwithstanding any other provision of law, none of the funds made available by this Act shall be used by the Department of Defense to exceed, outside the fifty United States, its territories, and the District of Columbia, 125,000 civilian workyears: Provided, That workyears shall be applied as defined in the Federal Personnel Manual: Provided further, That workyears expended in dependent student hiring programs for disadvantaged youths shall not be included in this workyear limitation.

SEC. 8012. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8013. (a) None of the funds appropriated by this Act shall be used to make contributions to the Department of Defense Education Benefits Fund pursuant to section 2006(g) of title 10, United States Code, representing the normal cost for future benefits under section 3015(c) of title 38, United States Code, for any member of the armed services who, on or after the date of enactment of this Act—

(1) enlists in the armed services for a period of active duty of less than three years; or

(2) receives an enlistment bonus under section 308a or 308f of title 37, United States Code,

nor shall any amounts representing the normal cost of such future benefits be transferred from the Fund by the Secretary of the Treasury to the Secretary of Veterans Affairs pursuant to section 2006(d) of title 10, United States Code; nor shall the Secretary of Veterans Affairs pay such benefits to any such member: Provided, That in the case of a member covered by clause (1), these limitations shall not apply to members in combat arms skills or to members who enlist in the armed services on or after July 1, 1989, under a program continued or established by the Secretary of Defense in fiscal year 1991 to test the cost-effective use of special recruiting incentives involving not more than nineteen noncombat arms skills approved in advance by the Secretary of Defense: Provided further, That this subsection applies only to active components of the Army.

(b) None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this subsection shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further, That this subsection applies only to active components of the Army.

SEC. 8014. None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of enactment of this Act, is performed by more than ten Department of Defense civilian employees until a most efficient and cost-effective organization analysis is completed on such activity or function and certification of the analysis is made to the Committees on Appropriations of the House of Representatives and the Senate: Provided, That this section shall not apply to a commercial or industrial type function of the Department of Defense that: (1) is included on the procurement list established pursuant to section 2 of the Act of June 25, 1938 (41 U.S.C. 47), popularly referred to as the Javits-Wagner-O'Day Act; (2) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or (3) is planned to be converted to performance by a qualified firm under 51 per centum Native American ownership.

(TRANSFER OF FUNDS)

SEC. 8015. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2301 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8016. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8017. None of the funds appropriated by this Act available for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) shall be available for the reimbursement of any health care provider for inpatient mental health service for care received when a patient is referred to a provider of inpatient mental health care or residential treatment care by a medical or health care professional having an economic interest in the facility to which the patient is referred: Provided, That this limitation does not apply in the case of inpatient mental health services provided under the program for the handicapped under subsection (d) of section 1079 of title 10, United States Code, provided as partial hospital care, or provided pursuant to a waiver authorized by the Secretary of Defense because of medical or psychological circumstances of the patient that

are confirmed by a health professional who is not a Federal employee after a review, pursuant to rules prescribed by the Secretary, which takes into account the appropriate level of care for the patient, the intensity of services required by the patient, and the availability of that care.

SEC. 8018. Funds available in this Act may be used to provide transportation for the next-of-kin of individuals who have been prisoners of war or missing in action from the Vietnam era to an annual meeting in the United States, under such regulations as the Secretary of Defense may prescribe.

SEC. 8019. Notwithstanding any other provision of law, during the current fiscal year, the Secretary of Defense may, by Executive Agreement, establish with host nation governments in NATO member states a separate account into which such residual value amounts negotiated in the return of United States military installations in NATO member states may be deposited, in the currency of the host nation, in lieu of direct monetary transfers to the United States Treasury: Provided, That such credits may be utilized only for the construction of facilities to support United States military forces in that host nation, or such real property maintenance and base operating costs that are currently executed through monetary transfers to such host nations: Provided further, That the Department of Defense's budget submission for fiscal year 1999 shall identify such sums anticipated in residual value settlements, and identify such construction, real property maintenance or base operating costs that shall be funded by the host nation through such credits: Provided further, That all military construction projects to be executed from such accounts must be previously approved in a prior Act of Congress: Provided further, That each such Executive Agreement with a NATO member host nation shall be reported to the congressional defense committees, the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate thirty days prior to the conclusion and endorsement of any such agreement established under this provision.

SEC. 8020. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols.

SEC. 8021. Notwithstanding any other provision of law, none of the funds appropriated by this Act shall be available to pay more than 50 per centum of an amount paid to any person under section 308 of title 37, United States Code, in a lump sum.

SEC. 8022. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government.

SEC. 8023. A member of a reserve component whose unit or whose residence is located in a state which is not contiguous with another state is authorized to travel in a space required status on aircraft of the Armed Forces between home and place of inactive duty training, or place of duty in lieu of unit training assembly, when there is no road or railroad transportation (or combination of road and railroad transportation between those locations): Provided, That a member traveling in that status on a military aircraft pursuant to the authority provided in this section is not authorized to receive travel, transportation, or per diem allowances in connection with that travel.

SEC. 8024. In addition to funds provided elsewhere in this Act, \$8,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974, 25

U.S.C. 1544: Provided, That these payments shall be available only to contractors which have submitted subcontracting plans pursuant to 15 U.S.C. 637(d), and according to regulations which shall be promulgated by the Secretary of Defense within 90 days of the passage of this Act: Provided further, That contractors participating in the test program established by Section 854 of Public Law 101-189 (15 U.S.C. 637 note) shall be eligible for the program established by Section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

SEC. 8025. During the current fiscal year, none of the funds available to the Department of Defense may be used to procure or acquire (1) defensive handguns unless such handguns are the M-9 or M-11 9mm Department of Defense standard handguns, or (2) offensive handguns except for the Special Operations Forces: Provided, That the foregoing shall not apply to handguns and ammunition for marksmanship competitions.

SEC. 8026. During the current fiscal year, funds appropriated or otherwise available for any Federal agency, the Congress, the judicial branch, or the District of Columbia may be used for the pay, allowances, and benefits of an employee as defined by section 2105 of title 5 or an individual employed by the government of the District of Columbia, permanent or temporary indefinite, who—

(1) is a member of a Reserve component of the Armed Forces, as described in section 10101 of title 10, or the National Guard, as described in section 101 of title 32;

(2) performs, for the purpose of providing military aid to enforce the law or providing assistance to civil authorities in the protection or saving of life or property or prevention of injury—

(A) Federal service under sections 331, 332, 333, or 12406 of title 10, or other provision of law, as applicable; or

(B) full-time military service for his or her State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States; and

(3) requests and is granted—

(A) leave under the authority of this section; or

(B) annual leave, which may be granted without regard to the provisions of sections 5519 and 6323(b) of title 5, if such employee is otherwise entitled to such annual leave:

Provided, That any employee who requests leave under subsection (3)(A) for service described in subsection (2) of this section is entitled to such leave, subject to the provisions of this section and of the last sentence of section 6323(b) of title 5, and such leave shall be considered leave under section 6323(b) of title 5.

SEC. 8027. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds a period of twenty-four months after initiation of such study with respect to a single function activity or forty-eight months after initiation of such study for a multi-function activity.

SEC. 8028. Funds appropriated by this Act for the American Forces Information Service shall not be used for any national or international political or psychological activities.

SEC. 8029. Notwithstanding any other provision of law or regulation, the Secretary of Defense may adjust wage rates for civilian employees hired for certain health care occupations as authorized for the Secretary of Veterans Affairs by section 7455 of title 38, United States Code.

SEC. 8030. None of the funds appropriated or made available in this Act shall be used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve, if such action would reduce the WC-130 Weather Reconnaissance mission below the levels funded in this Act.

SEC. 8031. (a) Of the funds for the procurement of supplies or services appropriated by this

Act, qualified nonprofit agencies for the blind or other severely handicapped shall be afforded the maximum practicable opportunity to participate as subcontractors and supplies in the performance of contracts let by the Department of Defense.

(b) During the current fiscal year, a business concern which has negotiated with a military service or defense agency a subcontracting plan for the participation by small business concerns pursuant to section 8(d) of the Small Business Act (15 U.S.C. 637(d)) shall be given credit toward meeting that subcontracting goal for any purchases made from qualified nonprofit agencies for the blind or other severely handicapped.

(c) For the purpose of this section, the phrase "qualified nonprofit agency for the blind or other severely handicapped" means a nonprofit agency for the blind or other severely handicapped that has been approved by the Committee for the Purchase from the Blind and Other Severely Handicapped under the Javits-Wagner-O'Day Act (41 U.S.C. 46-48).

SEC. 8032. During the current fiscal year, net receipts pursuant to collections from third party payers pursuant to section 1095 of title 10, United States Code, shall be made available to the local facility of the uniformed services responsible for the collections and shall be over and above the facility's direct budget amount.

SEC. 8033. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: Provided, That, upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8034. Of the funds made available in this Act, not less than \$26,247,000 shall be available for the Civil Air Patrol, of which \$22,702,000 shall be available for Operation and maintenance.

SEC. 8035. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other non-profit entities.

(b) LIMITATION ON COMPENSATION—FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER (FFRDC).—No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, may be compensated for his or her services as a member of such entity, or as a paid consultant, except under the same conditions, and to the same extent, as members of the Defense Science Board: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year 1998 may be used by a defense FFRDC, through a fee or other payment mechanism, for charitable contributions, for construction of new buildings, for payment of cost sharing for projects funded by government grants, or for absorption of contract overruns.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 1998, not more than 6,206 staff years of technical effort (staff years) may be funded for defense FFRDCs: Provided, That of the specific amount referred to previously in this subsection, not more than 1,105 staff years may

be funded for the defense studies and analysis FFRDCs.

(e) Notwithstanding any other provision of law, the Secretary of Defense shall control the total number of staff years to be performed by defense FFRDCs during fiscal year 1998 so as to reduce the total amounts appropriated in titles II, III, and IV of this Act by \$71,800,000: Provided, That the total amounts appropriated in titles II, III, and IV of this Act are hereby reduced by \$71,800,000 to reflect savings from the use of defense FFRDCs by the department.

(f) Within 60 days after enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report presenting the specific amounts of staff years of technical effort to be allocated by the department for each defense FFRDC during fiscal year 1998: Provided, That, after the submission of the report required by this subsection, the department may not reallocate more than five per centum of an FFRDC's staff years among other defense FFRDCs until 30 days after a detailed justification for any such reallocation is submitted to the congressional defense committees.

(g) The Secretary of Defense shall, with the submission of the department's fiscal year 1999 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year.

(h) No part of the reductions contained in subsection (e) of this section may be applied against any budget activity, activity group, sub-activity group, line item, program element, program, project, subproject or activity which does not fund defense FFRDC activities within each appropriation account, and the reductions in subsection (e) shall be allocated on a proportional basis.

(i) Not later than 90 days after enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report listing the specific funding reductions allocated to each category listed in subsection (h) above pursuant to this section.

SEC. 8036. None of the funds in this or any other Act shall be available for the preparation of studies on—

(a) the cost effectiveness or feasibility of removal and transportation of unitary chemical weapons or agents from the eight chemical storage sites within the continental United States to Johnston Atoll: Provided, That this prohibition shall not apply to General Accounting Office studies requested by a Member of Congress or a Congressional Committee; and

(b) the potential future uses of the nine chemical disposal facilities other than for the destruction of stockpile chemical munitions and as limited by section 1412(c)(2), Public Law 99-145: Provided, That this prohibition does not apply to future use studies for the CAMDS facility at Tooele, Utah.

SEC. 8037. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of enactment of this Act.

SEC. 8038. For the purposes of this Act, the term "congressional defense committees" means the National Security Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on National Security of the Committee on Appropriations of the House of Representatives.

SEC. 8039. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: Provided, That the Senior Acquisition Executive of the military department or defense agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: Provided further, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

SEC. 8040. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 1998. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

SEC. 8041. The total amounts appropriated in titles II, III, and IV of this Act are hereby reduced by \$300,000,000 to reflect savings from the use of advisory and assistance services by the Department of Defense: Provided, That the savings shall be applied to the following titles in the following amounts:

Title II, Operation and Maintenance, \$112,000,000;

Title III, Procurement, \$62,000,000; and

Title IV, Research, Development, Test and Evaluation, \$126,000,000:

Provided further, That the savings specified shall be applied only to funds budgeted to purchase advisory and assistance services: Provided further, That the savings shall be applied on a pro-rata basis to each program, project and activity which included budget funds for advisory and assistance services.

SEC. 8042. Appropriations contained in this Act that remain available at the end of the current fiscal year as a result of energy cost savings realized by the Department of Defense shall remain available for obligation for the next fiscal year to the extent, and for the purposes, provided in section 2865 of title 10, United States Code.

SEC. 8043. Notwithstanding any other provision of this Act, the amounts provided in all appropriation accounts in titles III and IV of this Act are reduced by 1.5 percent: Provided, That these reductions shall be applied on a pro-rata basis to each line item, program element, program, project, subproject, and activity within each appropriation account: Provided further, That not later than 60 days after the enactment of this Act, the Undersecretary of Defense (Comptroller) shall submit a report to the congressional defense committees listing the specific funding reductions allocated to each category listed in the preceding proviso pursuant to this section.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8044. Amounts deposited during the current fiscal year to the special account established under 40 U.S.C. 485(h)(2) and to the special account established under 10 U.S.C. 2667(d)(1) are appropriated and shall be available until transferred by the Secretary of Defense to current applicable appropriations or funds of the Department of Defense under the terms and conditions specified by 40 U.S.C. 485(h)(2) (A) and (B) and 10 U.S.C. 2667(d)(1)(B), to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred.

SEC. 8045. During the current fiscal year, appropriations available to the Department of Defense may be used to reimburse a member of a reserve component of the Armed Forces who is not otherwise entitled to travel and transportation allowances and who occupies transient government housing while performing active duty for training or inactive duty training: Provided, That such members may be provided lodging in kind if transient government quarters are unavailable as if the member was entitled to such allowances under subsection (a) of section 404 of title 37, United States Code: Provided further, That if lodging in kind is provided, any authorized service charge or cost of such lodging may be paid directly from funds appropriated for operation and maintenance of the reserve component of the member concerned.

SEC. 8046. The President shall include with each budget for a fiscal year submitted to the Congress under section 1105 of title 31, United States Code, materials that shall identify clearly and separately the amounts requested in the budget for appropriation for that fiscal year for salaries and expenses related to administrative activities of the Department of Defense, the military departments, and the Defense Agencies.

SEC. 8047. Notwithstanding any other provision of law, funds available for "Drug Interdiction and Counter-Drug Activities, Defense" may be obligated for the Young Marines program.

SEC. 8048. Notwithstanding any other provision of this Act, the total amount appropriated in title IV of this Act is hereby reduced by \$474,000,000: Provided, That each program element, program, project, subproject, and activity funded in title IV of this Act shall be allocated a pro-rata share of any of the reductions made by this section: Provided further, That not later than 60 days after the enactment of this Act, the Undersecretary of Defense (Comptroller) shall submit a report to the congressional defense committees listing the specific funding reductions allocated to each category listed in the preceding proviso pursuant to this section.

SEC. 8049. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. 8050. Of the funds appropriated or otherwise made available by this Act, not more than \$119,200,000 shall be available for payment of the operating costs of NATO Headquarters: Provided, That the Secretary of Defense may waive

this section for Department of Defense support provided to NATO forces in and around the former Yugoslavia.

SEC. 8051. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$100,000.

SEC. 8052. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Working Capital Funds during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 1999 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1999 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 1999 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.

SEC. 8053. None of the funds provided in this Act and hereafter shall be available for use by a Military Department to modify an aircraft, weapon, ship or other item of equipment, that the Military Department concerned plans to retire or otherwise dispose of within five years after completion of the modification: Provided, That this prohibition shall not apply to safety modifications: Provided further, That this prohibition may be waived by the Secretary of a Military Department if the Secretary determines it is in the best national security interest of the United States to provide such waiver and so notifies the congressional defense committees in writing.

SEC. 8054. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 1999.

SEC. 8055. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

SEC. 8056. Of the funds appropriated by the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$8,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8057. Amounts collected for the use of the facilities of the National Science Center for Communications and Electronics during the current fiscal year pursuant to section 1459(g) of the Department of Defense Authorization Act, 1986, and deposited to the special account established under subsection 1459(g)(2) of that Act are appropriated and shall be available until expended for the operation and maintenance of

the Center as provided for in subsection 1459(g)(2).

SEC. 8058. None of the funds appropriated in this Act may be used to fill the commander's position at any military medical facility with a health care professional unless the prospective candidate can demonstrate professional administrative skills.

SEC. 8059. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8060. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work, or

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source, or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support:

Provided, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8061. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the Department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to field operating agencies funded within the National Foreign Intelligence Program.

SEC. 8062. Funds appropriated by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of

section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 1998 until the enactment of the Intelligence Authorization Act for Fiscal Year 1998.

SEC. 8063. Notwithstanding section 303 of Public Law 96-487 or any other provision of law, the Secretary of the Navy is authorized to lease real and personal property at Naval Air Facility, Adak, Alaska, pursuant to 10 U.S.C. 2667(f), for commercial, industrial or other purposes.

(RESCISSIONS)

SEC. 8064. Of the funds provided in Department of Defense Appropriations Acts, the following funds are hereby rescinded from the following accounts in the specified amounts:

"Shipbuilding and Conversion, Navy, 1996/2000", \$35,600,000;

"Other Procurement, Navy, 1996/1998", \$3,300,000;

"Aircraft Procurement, Army, 1997/1999", \$5,000,000;

"Procurement of Ammunition, Army, 1997/1999", \$5,000,000;

"Other Procurement, Army, 1997/1999", \$6,000,000;

"Other Procurement, Navy, 1997/1999", \$2,200,000;

"Aircraft Procurement, Navy, 1997/1999", \$24,000,000;

"Research, Development, Test and Evaluation, Army, 1997/1998", \$6,000,000;

"Research, Development, Test and Evaluation, Navy, 1997/1998", \$40,000,000;

"Research, Development, Test and Evaluation, Air Force, 1997/1998", \$25,000,000;

"Research, Development, Test and Evaluation, Defense-Wide, 1997/1998", \$24,000,000.

SEC. 8065. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Guard, the Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.

SEC. 8066. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of North Korea unless specifically appropriated for that purpose.

SEC. 8067. During the current fiscal year, funds appropriated in this Act are available to compensate members of the National Guard for duty performed pursuant to a plan submitted by a Governor of a State and approved by the Secretary of Defense under section 112 of title 32, United States Code: Provided, That during the performance of such duty, the members of the National Guard shall be under State command and control: Provided further, That such duty shall be treated as full-time National Guard duty for purposes of sections 12602 (a)(2) and (b)(2) of title 10, United States Code.

SEC. 8068. Funds appropriated in this Act for operation and maintenance of the Military Departments, Unified and Specified Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence support to Unified Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the General Defense Intelligence Program and the Consolidated Cryptologic Program: Provided, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8069. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 1997

level: Provided, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8070. None of the funds appropriated in this Act may be transferred to or obligated from the Pentagon Reservation Maintenance Revolving Fund, unless the Secretary of Defense certifies that the total cost for the planning, design, construction and installation of equipment for the renovation of the Pentagon Reservation will not exceed \$1,118,000,000.

SEC. 8071. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(TRANSFER OF FUNDS)

SEC. 8072. Appropriations available in this Act under the heading "Operation and Maintenance, Defense-Wide" for increasing energy and water efficiency in Federal buildings may, during their period of availability, be transferred to other appropriations or funds of the Department of Defense for projects related to increasing energy and water efficiency, to be merged with and to be available for the same general purposes, and for the same time period, as the appropriation or fund to which transferred.

SEC. 8073. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8074. Notwithstanding any other provision of law, funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to American Samoa: Provided, That notwithstanding any other provision of law, funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to the Indian Health Service when it is in conjunction with a civil-military project.

SEC. 8075. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8076. Notwithstanding any other provision of law, the Naval shipyards of the United States shall be eligible to participate in any manufacturing extension program financed by funds appropriated in this or any other Act.

SEC. 8077. Notwithstanding any other provision of law, each contract awarded by the Department of Defense during the current fiscal year for construction or service performed in whole or in part in a State which is not contiguous with another State and has an unemployment rate in excess of the national average rate

of unemployment as determined by the Secretary of Labor, shall include a provision requiring the contractor to employ, for the purpose of performing that portion of the contract in such State that is not contiguous with another State, individuals who are residents of such State and who, in the case of any craft or trade, possess or would be able to acquire promptly the necessary skills: Provided, That the Secretary of Defense may waive the requirements of this section, on a case-by-case basis, in the interest of national security.

SEC. 8078. During the current fiscal year, the Army shall use the former George Air Force Base as the airhead for the National Training Center at Fort Irwin: Provided, That none of the funds in this Act shall be obligated or expended to transport Army personnel into Edwards Air Force Base for training rotations at the National Training Center.

SEC. 8079. (a) The Secretary of Defense shall submit, on a quarterly basis, a report to the congressional defense committees, the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate setting forth all costs (including incremental costs) incurred by the Department of Defense during the preceding quarter in implementing or supporting resolutions of the United Nations Security Council, including any such resolution calling for international sanctions, international peacekeeping operations, and humanitarian missions undertaken by the Department of Defense. The quarterly report shall include an aggregate of all such Department of Defense costs by operation or mission.

(b) The Secretary of Defense shall detail in the quarterly reports all efforts made to seek credit against past United Nations expenditures and all efforts made to seek compensation from the United Nations for costs incurred by the Department of Defense in implementing and supporting United Nations activities.

SEC. 8080. (a) LIMITATION ON TRANSFER OF DEFENSE ARTICLES AND SERVICES.—Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on International Relations of the House of Representatives, and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) COVERED ACTIVITIES.—This section applies to—

(1) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance operation.

(c) REQUIRED NOTICE.—A notice under subsection (a) shall include the following:

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.

SEC. 8081. To the extent authorized by subchapter VI of chapter 148 of title 10, United States Code, the Secretary of Defense shall issue

loan guarantees in support of U.S. defense exports not otherwise provided for: Provided, That the total contingent liability of the United States for guarantees issued under the authority of this section may not exceed \$15,000,000,000: Provided further, That the exposure fees charged and collected by the Secretary for each guarantee, shall be paid by the country involved and shall not be financed as part of a loan guaranteed by the United States: Provided further, That the Secretary shall provide quarterly reports to the Committees on Appropriations, Armed Services and Foreign Relations of the Senate and the Committees on Appropriations, National Security and International Relations in the House of Representatives on the implementation of this program: Provided further, That amounts charged for administrative fees and deposited to the special account provided for under section 2540(c)(d) of title 10, shall be available for paying the costs of administrative expenses of the Department of Defense that are attributable to the loan guarantee program under subchapter VI of chapter 148 of title 10.

SEC. 8082. None of the funds available to the Department of Defense shall be obligated or expended to make a financial contribution to the United Nations for the cost of an United Nations peacekeeping activity (whether pursuant to assessment or a voluntary contribution) or for payment of any United States arrearage to the United Nations.

SEC. 8083. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

SEC. 8084. (a) None of the funds appropriated or otherwise made available in this Act may be used to transport or provide for the transportation of chemical munitions or agents to the Johnston Atoll for the purpose of storing or demilitarizing such munitions or agents.

(b) The prohibition in subsection (a) shall not apply to any obsolete World War II chemical munition or agent of the United States found in the World War II Pacific Theater of Operations.

(c) The President may suspend the application of subsection (a) during a period of war in which the United States is a party.

SEC. 8085. None of the funds provided in title II of this Act for "Former Soviet Union Threat Reduction" may be obligated or expended to finance housing for any individual who was a member of the military forces of the Soviet Union or for any individual who is or was a member of the military forces of the Russian Federation.

SEC. 8086. During the current fiscal year, no more than \$10,000,000 of appropriations made in this Act under the heading "Operation and Maintenance, Defense-Wide" may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8087. For purposes of section 1553(b) of title 31, United States Code, any subdivision of appropriations made in this Act under the heading "Shipbuilding and Conversion, Navy" shall be considered to be for the same purpose as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in any prior year, and the one percent limitation shall apply to the total amount of the appropriation.

SEC. 8088. Notwithstanding 31 U.S.C. 1552(a), not more than \$14,000,000 appropriated under

the heading "Aircraft Procurement, Air Force" in Public Law 102-396 which was available and obligated for the B-2 Aircraft Program shall remain available for expenditure and for adjusting obligations for such program until September 30, 2003.

SEC. 8089. During the current fiscal year, in the case of an appropriation account of the Department of Defense for which the period of availability for obligation has expired or which has closed under the provisions of section 1552 of title 31, United States Code, and which has a negative unliquidated or unexpended balance, an obligation or an adjustment of an obligation may be charged to any current appropriation account for the same purpose as the expired or closed account if—

(1) the obligation would have been properly chargeable (except as to amount) to the expired or closed account before the end of the period of availability or closing of that account;

(2) the obligation is not otherwise properly chargeable to any current appropriation account of the Department of Defense; and

(3) in the case of an expired account, the obligation is not chargeable to a current appropriation of the Department of Defense under the provisions of section 1405(b)(8) of the National Defense Authorization Act for Fiscal Year 1991, Public Law 101-510, as amended (31 U.S.C. 1551 note): Provided, That in the case of an expired account, if subsequent review or investigation discloses that there was not in fact a negative unliquidated or unexpended balance in the account, any charge to a current account under the authority of this section shall be reversed and recorded against the expired account: Provided further, That the total amount charged to a current appropriation under this section may not exceed an amount equal to one percent of the total appropriation for that account.

(TRANSFER OF FUNDS)

SEC. 8090. Upon enactment of this Act, the Secretary of Defense shall make the following transfers of funds: Provided, That the amounts transferred shall be available for the same purposes as the appropriations to which transferred, and for the same time period as the appropriation from which transferred: Provided further, That the amounts shall be transferred between the following appropriations in the amount specified:

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1989/2000":

SSN-688 attack submarine program, \$3,000,000;

DDG-51 destroyer program, \$1,500,000;

LHD-1 amphibious assault ship program, \$8,000,000;

T-AO fleet oiler program, \$3,453,000;

AOE combat support ship program, \$3,600,000; and

For craft, outfitting, and post delivery, \$2,019,000;

To:

Under the heading, "Shipbuilding and Conversion, Navy, 1989/2000":

SSN-21 attack submarine program, \$21,572,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1991/2001":

DDG-51 destroyer program, \$1,060,000;

LHD-1 amphibious assault ship program, \$1,600,000;

LSD-41 cargo variant ship program, \$2,666,000;

AOE combat support ship program, \$7,307,000; and

For craft, outfitting, and post delivery, \$12,000,000;

To:

Under the heading, "Shipbuilding and Conversion, Navy, 1991/2001":

SSN-21 attack submarine program, \$24,633,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1996/2000":

LHD-1 amphibious assault ship program, \$5,592,000;

To:

Under the heading, "Shipbuilding and Conversion, Navy, 1996/2000":

SSN-21 attack submarine program, \$5,592,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1994/1998":

LHD-1 amphibious assault ship program, \$400,000; and

DDG-51 destroyer program, \$1,054,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1995/1999":

For craft, outfitting, and post delivery, conversions, and first destination transportation, \$715,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1996/2000":

LHD-1 amphibious assault ship program, \$17,513,000; and

For craft, outfitting, and post delivery, conversions, and first destination transportation, \$878,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1997/2001":

For craft, outfitting, and post delivery, conversions, and first destination transportation, \$3,600,000;

To:

Under the heading, "Shipbuilding and Conversion, Navy, 1997/2001":

DDG-51 destroyer program, \$24,160,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1996/2000":

Fast Patrol Boat, \$9,500,000;

To:

"Research, Development, Test and Evaluation, Navy, 1998/1999", \$9,500,000;

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1997/2001":

Oceanographic ship SWATH, \$45,000,000;

To:

"Research, Development, Test and Evaluation, Navy, 1998/1999", \$45,000,000;

From:

"Aircraft Procurement, Air Force, 1997/1999", \$73,531,000;

To:

"Research, Development, Test and Evaluation, Air Force, 1997/1998", \$73,531,000;

Provided further, That notwithstanding any other provision of law, to facilitate a full and final settlement of all claims under contracts N00024-79-C-2614 and N00024-77-C-2031, the Secretary of the Navy may offset the amount of \$1,660,680.84, owed by the Navy under contract N00024-79-C-2614 for the T-ARC-7 against an equal amount, \$1,660,680.84, owed to the Navy under contract N00024-77-C-2031 for the AD 43.

SEC. 8091. The Under Secretary of Defense (Comptroller) shall submit to the congressional defense committees by February 1, 1998 a detailed report identifying, by amount and by separate budget activity, activity group, subactivity group, line item, program element, program, project, subproject, and activity, any activity for which the fiscal year 1999 budget request was reduced because Congress appropriated funds above the President's budget request for that specific activity for fiscal year 1998.

SEC. 8092. (a) None of the funds available to the Department of Defense under this Act may be obligated or expended to reimburse a defense contractor for restructuring costs associated with a business combination of the defense contractor that occurs after the date of enactment of this Act unless—

(1) the auditable savings for the Department of Defense resulting from the restructuring will exceed the costs allowed by a factor of at least two to one; or

(2) the savings for the Department of Defense resulting from the restructuring will exceed the costs allowed and the Secretary of Defense determines that the business combination will result in the preservation of a critical capability that might otherwise be lost to the Department; and

(3) the report required by Section 818(e) of Public Law 103-337 to be submitted to Congress in 1997 is submitted.

(b) Not later than April 1, 1998, the Comptroller General shall, in consultation with the Inspector General of the Department of Defense, the Secretary of Defense, and the Secretary of Labor, submit to Congress a report which shall include the following:

(1) an analysis and breakdown of the restructuring costs paid by or submitted to the Department of Defense to companies involved in business combinations since 1993;

(2) an analysis of the specific costs associated with workforce reductions;

(3) an analysis of the services provided to the workers affected by business combinations;

(4) an analysis of the effectiveness of the restructuring costs used to assist laid off workers in gaining employment; and

(5) in accordance with section 818 of Public Law 103-337, an analysis of the savings reached from the business combination relative to the restructuring costs paid by the Department of Defense.

(c) The report should set forth recommendations to make this program more effective for workers affected by business combinations and more efficient in terms of the use of Federal dollars.

SEC. 8093. Funds appropriated in title II of this Act for supervision and administration costs for facilities maintenance and repair, minor construction, or design projects may be obligated at the time the reimbursable order is accepted by the performing activity: Provided, That for the purpose of this section, supervision and administration costs includes all in-house Government cost.

SEC. 8094. The Secretary of Defense may waive reimbursement of the cost of conferences, seminars, courses of instruction, or similar educational activities of the Asia-Pacific Center for Security Studies for military officers and civilian officials of foreign nations if the Secretary determines that attendance by such personnel, without reimbursement, is in the national security interest of the United States: Provided, That costs for which reimbursement is waived pursuant to this subsection shall be paid from appropriations available for the Asia-Pacific Center.

SEC. 8095. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8096. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may

be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source.

SEC. 8097. Notwithstanding any other provision of law, and notwithstanding the provisions in section 7306 of title 10, United States Code, in addition to amounts otherwise appropriated or made available by this Act, \$13,000,000 is appropriated to the Department of the Navy and shall be available only for a grant to the Intrepid Sea-Air-Space Foundation only for the refurbishment of the former U.S.S. Intrepid (CV 11).

SEC. 8098. In accordance with section 1557 of title 31, United States Code, the following obligated balance shall be exempt from subchapter IV of chapter 15 of such title and shall remain available for expenditure without fiscal year limitation: Funds obligated by the Economic Development Administration for EDA Project No. 04-49-04095 from funds made available in the Department of Defense Appropriations Act, 1994 (Public Law 103-189).

SEC. 8099. None of the funds provided by this Act may be used to pay costs of instruction for an Air Force officer for enrollment commencing during the 1998-1999 academic year in a post-graduate degree program at a civilian educational institution if—

(1) the degree program to be pursued by that officer is offered by the Air Force Institute of Technology (or was offered by that institute during the 1996-1997 academic year);

(2) the officer is qualified for enrollment at the Air Force Institute of Technology in that degree program; and

(3) the number of students commencing that degree program at the Air Force Institute of Technology during the first semester of the 1998-1999 academic year is less than the number of students commencing that degree program for the first semester of the 1996-1997 academic year.

SEC. 8100. During the current fiscal year, the amounts which are necessary for the operation and maintenance of the Fisher Houses administered by the Departments of the Army, the Navy, and the Air Force are hereby appropriated, to be derived from amounts which are available in the applicable Fisher House trust fund established under 10 U.S.C. 2221 for the Fisher Houses of each such department.

SEC. 8101. During the current fiscal year, refunds attributable to the use of the Government travel card by military personnel and civilian employees of the Department of Defense may be credited to operation and maintenance accounts of the Department of Defense which are current when the refunds are received.

SEC. 8102. During the current fiscal year, not more than a total of \$60,000,000 in withdrawal credits may be made by the Marine Corps Supply Management activity group of the Navy Working Capital Fund, Department of Defense Working Capital Funds, to the credit of current applicable appropriations of a Department of Defense activity in connection with the acquisition of critical low density repairables that are capitalized into the Navy Working Capital Fund.

SEC. 8103. Notwithstanding 31 U.S.C. 3902, during the current fiscal year interest penalties may be paid by the Department of Defense from funds financing the operation of the military department or defense agency with which the invoice or contract payment is associated.

SEC. 8104. At the time the President submits his budget for fiscal year 1999, the Department of Defense shall transmit to the congressional defense committees a budget justification document for the active and reserve Military Personnel accounts, to be known as the "M-1", which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel in any budget request, or amended budget request, for fiscal year 1999.

SEC. 8105. Notwithstanding any other provision in this Act, the total amount appropriated

in this Act is hereby reduced by \$100,000,000 to reflect savings due to excess inventory, to be distributed as follows: "Operation and Maintenance, Army", \$40,000,000; "Operation and Maintenance, Navy", \$40,000,000; and "Operation and Maintenance, Air Force", \$20,000,000.

SEC. 8106. Notwithstanding any other provision in this Act, the total amount appropriated in title III of this Act is hereby reduced by \$75,000,000 to reflect savings from repeal of section 2403 of title 10, United States Code.

SEC. 8107. The Secretary of the Army may exchange or sell one Army C-20 aircraft and may apply the exchange allowance or sale proceeds in whole or in part payment for the acquisition of one C-37 aircraft: Provided, That in addition to such exchange allowance or sale proceeds, of the amount appropriated for fiscal year 1998 for Aircraft Procurement, Air Force, not more than \$6,000,000 shall be made available for acquisition of the C-37 for the United States Army: Provided further, That in addition to such exchange allowance or sale proceeds, of the amount appropriated for fiscal year 1997 for Aircraft Procurement, Air Force, not more than \$27,100,000 shall be made available for acquisition of the C-37 for the United States Army.

SEC. 8108. During the current fiscal year, the Secretary of Defense may award contracts for capital assets having a development or acquisition cost of not less than \$100,000 of a Working Capital Fund in advance of the availability of funds in the Working Capital Fund for minor construction, automatic data processing equipment, software, equipment, and other capital improvements.

SEC. 8109. From funds made available by this Act for the Maritime Technology Program up to \$250,000 shall be made available to assist with a pilot project that will facilitate the transfer of commercial cruise ship shipbuilding technology and expertise to U.S. yards, utilize the experience and expertise of existing U.S.-flag cruise ship operators, and enable the operation of a U.S.-flag foreign-built cruise ship, and two newly-constructed U.S.-flag cruise ships: Provided, That a person (including a related person with respect to that person) who, within 18 months after the date of enactment, enters into a binding contract for construction in the United States of two cruise ships, which contract shall provide for the construction of two cruise ships of equal or greater size than the cruise ship being operated by such person on the date of enactment and shall require the delivery of the first cruise ship no later than January 1, 2005, and the second cruise ship no later than January 1, 2008, may document with a coastwise endorsement a cruise ship constructed pursuant to this section and a foreign-built cruise ship otherwise in compliance with 46 U.S.C. sections 289, 883 and 12106 until such date which is twenty-four (24) months after the delivery of the second cruise ship or any subsequently delivered cruise ship: Provided further, That a person (including a related person with respect to that person) within the meaning of 46 U.S.C. section 801 may not operate a U.S.-flag foreign-built cruise ship, or any other cruise ship, in coastwise trade between or among the islands of Hawaii, upon execution of the contract referred to in this section and continuing throughout the life expectancy (as that term is used in 46 U.S.C. App 1125) of a newly constructed U.S. flag cruise ship referred to in this section, unless the cruise ship is operated by a person (including a related person with respect to that person) that is operating a cruise ship in coastwise trade between or among the islands of Hawaii on the date of enactment, except if any cruise ship constructed pursuant to this section operates in regular service other than between or among the islands of Hawaii: Provided further, That for purposes of this section the term "cruise ship" means a vessel that is at least 10,000 gross tons

(as measured under chapter 143 of title 46, United States Code) and has berth or stateroom accommodations for at least 275 passengers: Provided further, That for purposes of this section, unless otherwise defined in this section, the term "person" means a corporation, partnership or association the controlling interest of which is owned by citizens of the United States within the meaning of 46 U.S.C. section 802(b): Provided further, That for purposes of this section the term "related person" means with respect to a person (i) a holding company, subsidiary, affiliate or association of the person and (ii) an officer, director, or agent of the person or of an entity referred to in (i): Provided further, That none of the funds provided in this or any other Act may be obligated for the tooling to construct or the construction of vessels addressed by this section.

SEC. 8110. The Secretary of Defense shall submit to the congressional defense committees not later than November 15, 1997 an aviation safety plan outlining an appropriate level of navigational safety upgrades for all Department of Defense aircraft and the associated funding profile to install these upgrades in an expeditious manner.

SEC. 8111. Notwithstanding any other provision of law, the Secretary of Defense shall obligate the funds provided for University Research Initiatives in the Department of Defense Appropriations Act, 1997 (titles I through VIII under section 101(b) of Public Law 104-208) for the projects and in the amounts provided for in House Report 104-863 of the House of Representatives, 104th Congress, second session.

SEC. 8112. The Secretary of Defense shall submit to the Committees on Appropriations of the House of Representatives and Senate, not later than April 15, 1998, a report on alternatives for current theater combat simulations: Provided, That this report shall be based on a review and evaluation by the Defense Science Board of the adequacy of the current models used by the Department of Defense for theater combat simulations, with particular emphasis on the tactical warfare (TACWAR) model and the ability of that model to adequately measure airpower, stealth, and other asymmetrical United States warfighting advantages, and shall include the recommendations of the Defense Science Board for improvements to current models and modeling techniques.

SEC. 8113. Effective on June 30, 1998, section 8106(a) of the Department of Defense Appropriations Act, 1997 (titles I through VIII of the matter under section 101(b) of Public Law 104-208; 110 Stat. 3009-111; 10 U.S.C. 113 note), is amended by striking out "\$3,000,000" and inserting in lieu thereof "\$1,000,000".

SEC. 8114. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: Provided, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Foreign Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8115. It is the sense of the Congress that all member nations of the North Atlantic Treaty Organization (NATO) should contribute their proportionate share to pay for the costs of the Partnership for Peace program and for any future costs attributable to the expansion of NATO.

SEC. 8116. The budget of the President for fiscal year 1999 submitted to Congress pursuant to section 1105 of title 31, United States Code, and each annual budget request thereafter, shall in-

clude budget activity groups (known as "sub-activities") in the operation and maintenance accounts of the military departments and other appropriation accounts, as may be necessary, to separately identify all costs incurred by the Department of Defense to support the expansion of the North Atlantic Treaty Organization. The budget justification materials submitted to Congress in support of the budget of the Department of Defense for fiscal year 1999, and subsequent fiscal years, shall provide complete, detailed estimates for the incremental costs of such expansion.

SEC. 8117. None of the funds made available in this Act may be obligated or expended to enter into or renew a contract with a contractor that is subject to the reporting requirement set forth in subsection (d) of section 4212 of title 38, United States Code, but has not submitted the most recent report required by such subsection for 1997 or a subsequent year.

SEC. 8118. None of the funds made available in this Act may be used to approve or license the sale of the F-22 advanced tactical fighter to any foreign government.

SEC. 8119. None of the funds appropriated or otherwise made available by this Act may be made available for the United States Man and the Biosphere Program, or related projects.

SEC. 8120. Up to \$4,500,000 of funds available to the Department of Defense may be available for the payment of claims for loss and damage to personal property suffered as a direct result of the flooding in the Red River Basin during April and May, 1997 by members of the Armed Forces residing in the vicinity of Grand Forks Air Force Base, North Dakota, without regard to the provisions of section 3721(e) of title 31, United States Code.

SEC. 8121. Of the total amount appropriated under title II for the Navy, the Secretary of the Navy shall make \$25,000,000 available for a program to demonstrate expanded use of multitechnology automated reader cards throughout the Navy and the Marine Corps, including demonstration of the use of the so-called "smartship" technology of the ship-to-shore work load/off load program.

SEC. 8122. (a) FINDINGS.—(1) The North Atlantic Treaty Organization, at the Madrid summit, decided to admit three new members, the Czech Republic, Poland and Hungary.

(2) The President, on behalf of the United States endorsed and advocated the expansion of the North Atlantic Treaty Organization to include three additional members.

(3) The Senate will consider the ratification of instruments to approve the admissions of new members to the North Atlantic Treaty Organization.

(4) The United States has contributed more than \$20,000,000,000 since 1952 for infrastructure and support of the Alliance.

(5) In appropriations Acts considered by the Congress for fiscal year 1998, \$449,000,000 has been requested by the President for expenditures in direct support of United States participation in the Alliance.

(6) In appropriations Acts considered by the Congress for fiscal year 1998, \$9,983,300,000 has been requested by the President in support of United States military expenditures in North Atlantic Treaty Organization countries.

(b) REPORT TO CONGRESS.—The Secretary of Defense shall identify and report to the congressional defense committees not later than October 1, 1997—

(1) the amounts necessary, by appropriation account, for all anticipated costs to the United States for the admission of the Czech Republic, Poland and Hungary to the North Atlantic Treaty Organization for the fiscal years 1998, 1999, 2000, 2001 and 2002; and

(2) any new commitments or obligations entered into or assumed by the United States in association with the admission of new members to the Alliance, to include the deployment of United States military personnel, the provision

of defense articles or equipment, training activities and the modification and construction of military facilities.

SEC. 8123. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of warships, ball and roller bearings, and clothing or textile materials as defined by section 11 (chapters 50-65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, and 9404.

SEC. 8124. It is the sense of Congress that should the Senate ratify NATO enlargement, that the proportional cost of the United States share of the NATO common budget should not increase, and that if any NATO member does not pay its share, the United States shall not pay either.

SEC. 8125. Congress finds that the Defense Base Closure and Realignment Commission directed the transfer of only 10 electro-magnetic test environment systems from Eglin Air Force Base, Florida, to Nellis Air Force Base, Nevada.

SEC. 8126. (a) FINDINGS.—(1) The Department of Defense budget is insufficient to fulfill all the requirements on the unfunded priorities lists of the military services and defense agencies;

(2) the documented printing expenses of the Department of Defense amount to several hundred million dollars per year, and a similar amount of undocumented printing expenses may be included in external defense contracts;

(3) printing in two or more colors generally increases costs;

(4) the Joint Committee on Printing of the Congress of the United States has established regulations intended to protect taxpayers from extravagant Government printing expenses;

(5) the Government Printing and Binding Regulations published by the Joint Committee on Printing direct that "... it is the responsibility of the head of any department, independent office or establishment of the Government to assure that all multicolor printing shall contribute demonstrable value toward achieving a greater fulfillment of the ultimate end-purpose of whatever printed item in which it is included.";

(6) the Department of Defense publishes a large number of brochures, calendars, and other products in which the use of multicolor printing does not appear to meet the demonstrably valuable contribution requirement of the Joint Committee on Printing, but instead appears to be used primarily for decorative effect; and

(7) the Department of Defense could save resources for higher priority needs by reducing printing expenses.

(b) SENSE OF THE SENATE.—Therefore, it is the sense of the Senate that—

(1) the Secretary of Defense should ensure that the printing costs of the Department of Defense and military services are held to the lowest amount possible;

(2) the Department of Defense should strictly comply with the Printing and Binding Regulations published by the Joint Committee on Printing of the Congress of the United States;

(3) the Department of Defense budget submission for fiscal year 1999 should reflect the savings that will result from the stricter printing guidelines in paragraphs (1) and (2).

(RESCISSIONS)

SEC. 8127. Of the funds provided in title III of the Department of Defense Appropriations Act, 1996 (Public Law 104-61), \$62,000,000 are rescinded, and of the funds provided in title IV of the Department of Defense Appropriations Act, 1997 (as contained in section 101(b) of Public Law 104-208), \$38,000,000 are rescinded: Provided, That such rescissions shall not be made before July 1, 1998: Provided further, That not later than June 1, 1998, the Undersecretary of Defense (Comptroller) shall submit a report to the congressional defense committees listing the specific programs, projects and activities proposed for rescission subject to the provisions of this section.

SEC. 8128. Section 303(e) of the 1997 Emergency Supplemental Appropriations Act for Recovery from Natural Disasters, and for Overseas Peacekeeping Efforts, Including Those in Bosnia (Public Law 105-18; 111 Stat. 168) is struck and the following is inserted in lieu thereof:

"(e) AVAILABILITY OF FUNDS.—The Secretary may use funds available in the Defense Working Capital Fund for the payment of the costs of utilities, maintenance and repair, and improvements entered into under the lease under this section."

SEC. 8129. Subject to amounts appropriated under the heading "Shipbuilding and Conversion, Navy" in this Act for the New Attack Submarine Program, and notwithstanding any provisions of the National Defense Authorization Act for Fiscal Year 1996 and of the National Defense Authorization Act for Fiscal Year 1997 to the contrary, and notwithstanding section 2304(k) of title 10, United States Code, and the policy set forth in paragraph (1) of that section, the Secretary of the Navy may enter into a contract during fiscal year 1998 for the necessary procurement of four submarines under the New Attack Submarine Program with one of the two shipbuilders which are party to the Team Agreement between Electric Boat Corporation and Newport News Shipbuilding and Dry Dock Company dated February 25, 1997, that was submitted to the Congress by the Secretary of the Navy on March 31, 1997, as the prime contractor on the condition such prime contractor enter into one or more subcontracts (under such prime contract) with the other shipbuilder which is a party to such Team Agreement as contemplated in such Team Agreement, with such contract providing for construction of the first submarine in fiscal year 1998 and for the advance construction and advance procurement of material for the second, third, and fourth submarines in fiscal year 1998: Provided, That such prime contract shall provide that if such contract is terminated, the United States shall not be liable for termination costs in excess of the total amount appropriated for the New Attack Submarine Program.

SEC. 8130. In addition to the amounts provided elsewhere in this Act, \$3,000,000 is hereby appropriated for "Operations and Maintenance, Defense-Wide", and shall be made available only for the establishment of the "21st Century National Security Study Group" (hereinafter in this section referred to as the "Study Group"): Provided, That these funds may be obligated only upon the completion of a memorandum of agreement between the Secretary of Defense (after consultation with the President), the Speaker of the House of Representatives, the Minority Leader of the House of Representatives, the Majority Leader of the Senate, and the Minority Leader of the Senate: Provided further, That this memorandum of agreement

will set forth the scope of the Group's work, as well as its charter, composition, authorities, lifespan, and products to be generated: Provided further, That this memorandum of agreement shall be completed not later than December 15, 1997.

SEC. 8131. (a) PANEL TO REVIEW LONG RANGE AIR POWER.—(1) There is hereby established an independent panel to evaluate the adequacy of current planning for United States long-range air power and the requirement for continued low-rate production of B-2 stealth bombers.

(2) The panel shall be composed of nine members appointed as follows:

(A) Two members shall be named by the President;

(B) Two members shall be named by the Speaker of the House of Representatives;

(C) One member shall be named by the minority leader of the House of Representatives;

(D) Two members shall be named by the majority leader of the Senate;

(E) One member shall be named by the minority leader of the Senate; and

(F) One member, will serve as chairman of the panel, shall be named by the President.

(b) FUNCTIONS OF PANEL.—(1) Not later than March 1, 1998, the panel shall submit to the President and Congress a report containing its conclusions and recommendations concerning the appropriate B-2 bomber force and specifically stating its recommendation on whether additional funds for the B-2 should be used for continued low-rate production of the B-2 or for upgrades to improve deployability, survivability and maintainability.

(2) As part of its evaluation and review, the panel shall consider, but not be limited to, the following:

(A) Scenarios involving no warning time and little warning time from potential adversaries;

(B) The make-up of the current bomber fleet and expected attrition to that fleet over the next fifteen years;

(C) The potential effect of additional B-2 bombers on deterrence;

(D) The potential effect of additional B-2 bombers in the "halt phase" of a conflict;

(E) The potential of a biological or chemical "lock-out" of tactical U.S. assets by future adversaries and the effect of additional B-2 bombers toward mitigating such a tactic;

(F) Trade-offs between additional B-2 bombers and other programmed DOD assets in meeting the scenarios described in subsections (b)(2)(A) through (b)(2)(E) above;

(G) The desirability of an increased rate of purchase of precision-guided munitions for aircraft in the existing B-2 fleet;

(H) The desirability of improving the low observable characteristics of the existing B-2 fleet; and

(I) The affordability of additional B-2 bombers in the context of projected levels of future defense funding.

(c) PANEL ADMINISTRATION.—(1) The members of the panel shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the panel.

(2) Upon the request of the chairman of the panel, the Secretary of Defense may detail to the panel, on a nonreimbursable basis, personnel of the Department of Defense to assist the panel in carrying out its duties. The Secretary of Defense shall furnish to the panel such administrative and support services as may be requested by the chairman of the panel and shall ensure that all appropriate actions are taken to preserve the options of the President until the panel submits its report under subsection (b)(1).

(d) FUNDING.—The Secretary of Defense shall, upon the request of the panel, make available to the panel such amounts as the panel may require to carry out its duties under this section.

(e) TERMINATION OF THE PANEL.—The panel shall terminate 30 days after the date on which it submits its report under subsection (b)(1).

SEC. 8132. None of the funds in this Act may be made available for the deployment of United States armed forces in the Republic of Bosnia and Herzegovina after June 30, 1998, unless the President, after consultation with the bipartisan leadership of the Senate and the House of Representatives, transmits to the Congress not later than May 15, 1998 a certification that the continued presence of United States armed forces is required in order to meet the national security interests of the United States: Provided, That such certification shall specify the following aspects of any deployment beyond June 30, 1998—

(1) The reasons why such deployment is in the national interest;

(2) The number of United States military personnel to be deployed in and around the Republic of Bosnia and Herzegovina and the former Yugoslavia;

(3) The expected duration of any such deployment;

(4) The mission and objectives of United States military forces deployed in and around the Republic of Bosnia and Herzegovina and the former Yugoslavia;

(5) The exit strategy for United States forces engaged in such deployment;

(6) The costs associated with any deployment beyond June 30, 1998; and

(7) The impact of such deployment on the morale, retention, and effectiveness of U.S. forces:

Provided further, That concurrent with said certification, the President shall submit a supplemental appropriations request for such amounts as are necessary for any continued deployment beyond June 30, 1998: Provided further, That nothing in this section shall be deemed to restrict the authority of the President under the Constitution to protect the lives of United States citizens.

This Act may be cited as the "Department of Defense Appropriations Act, 1998".

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2266), making appropriations for the Department of Defense for the fiscal year ending September 30, 1998, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1998, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 105-206 and Senate Report 105-45 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

Senate Amendment: The Senate deleted the entire House bill after the enacting

clause and inserted the Senate bill. The conference agreement includes a revised bill.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 1998, the accompanying House and Senate Committee reports, the conference report and accompanying joint explanatory statement of the managers of the Committee of Conference, the related classified annexes and reports, and the P-1 and R-1 budget justification documents as subsequently modified by Congress-

sional action. The following exception to the above definition shall apply:

for the Military Personnel and the Operation and Maintenance accounts, the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act. At the time the President submits his budget for fiscal year 1999, the conferees direct the Department of Defense to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for operation and maintenance in any budget request, or amended budget request, for fiscal year 1999.

TITLE I—MILITARY PERSONNEL

The conferees agree to the following amounts and end strength totals for the Military Personnel accounts as follows:

	[In thousands of dollars]			
	Budget	House	Senate	Conference
Active personnel:				
Army	\$20,492,257	\$20,445,381	\$20,426,457	\$20,452,057
Navy	16,501,118	16,504,911	16,508,218	16,493,518
Marine Corps	6,147,599	6,141,635	6,148,899	6,137,899
Air Force	17,145,556	17,044,874	17,206,056	17,102,120
Reserve personnel:				
Army	2,024,446	2,045,615	2,037,046	2,032,046
Navy	1,375,401	1,377,249	1,374,901	1,376,601
Marine Corps	381,070	391,953	384,770	391,770
Air Force	814,936	814,772	815,745	815,915
National Guard Personnel:				
Army	3,200,667	3,245,387	3,446,867	3,333,867
Air Force	1,319,712	1,331,417	1,334,712	1,334,714
Total, Military Personnel	69,411,762	69,343,194	69,683,671	69,470,505

PERSONNEL UNDERSTRENGTH

The conferees recommend a total reduction of \$303,200,000 to the services military personnel accounts due to lower than estimated end strengths during fiscal year 1997. The conferees understand that the Services will begin fiscal year 1998 with fewer personnel on-board than originally budgeted, therefore, the requirements for pays and allowances of personnel are overstated. A summary of the understrength reductions is shown in the table below:

[In thousands of dollars]	
Army	—\$240,000
Navy	—10,000
Marine Corps	—3,600
Air Force	—44,600
Army Reserve	—5,000
Total	—303,200

FORCE STRUCTURE CHANGES

The fiscal year 1998 budget request included reductions in the size of Primary Aircraft Authorized (PAA) levels for Air Force B-52's, and Air Force Reserve and Air Na-

tional Guard C-130's units. The conferees recommend restoring these aircraft levels during fiscal year 1998. In addition, the conferees recommend adding funds to support the Air Force Reserve's WC-130 Weather Reconnaissance mission, and Navy Reserve LAMPS squadrons. In total, the conferees recommend an additional \$11,779,000 in the military personnel accounts and \$64,373,000 in the services Operations and Maintenance accounts for personnel and support costs of these units. A summary of the funds provided follows:

	Military personnel	O&M	Procurement	Total
Air Force, B-52's	4,500	42,400	10,400	57,300
Air Force Reserve, C-130's	1,409	6,780	8,189
Air National Guard C-130's	4,000	13,063	17,063
Air Force Reserve, WC-130 Weather Reconnaissance	170	830	1,000
Navy/Navy Reserve, Magic Lantern	1,700	1,300	3,000
Total	11,779	64,373	10,400	86,552

FOREIGN CURRENCY SAVINGS

The budget request reduces the active duty military personnel accounts by \$62,000,000 for foreign currency savings due to favorable fluctuations in overseas exchange rates. The conferees understand that there are additional savings and recommend a further reduction of \$16,000,000 to the personnel accounts, for a total foreign currency reduction of \$78,000,000.

CONTINGENCY OPERATIONS FUNDING

The fiscal year 1998 budget request recommended \$213,600,000 for pay and allowances of military personnel in the "Overseas Contingency Operations Transfer Fund", for cost of operations in Bosnia during fiscal year 1998. The conferees agree to the realignment of these funds into the Services military personnel accounts.

TEMPORARY EARLY RETIREMENT AUTHORITY

The conferees recommend a total of \$126,902,000 for Army and Air Force Tem-

porary Early Retirement Authority. Of this amount, the conferees agree to restore \$36,902,000, the budget request, for Army separation payments. However, due to enlisted understrength projections, the conferees recommend \$90,000,000, a reduction of \$57,836,000 from the budget request, for Air Force separation payments.

ACTIVE END STRENGTH

[Fiscal year 1998]

	Budget	Conference	Conference vs. budget
Army	495,000	495,000
Navy	390,802	390,802
Marine Corps	174,000	174,000
Air Force	371,577	371,699	+122
Total, Active Personnel	1,431,379	1,431,501	+122

MILITARY PERSONNEL, ARMY

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Basic Allowance for Quarters	10,326
Foreign Currency Savings	—4,000	—9,000
Temporary Early Retirement Program	—36,902
Service Academies Foreign Students	—1,000	—1,000
Personnel Understrength Savings	—183,100	—240,000
Family Separation Allowance	9,600	9,600
Contingency Operations Transfer—Bosnia	158,200	158,200	158,200
End Strength Reduction	—266,000
Additional Recruiting Support	42,000	42,000
Total, Military Personnel, Army	—46,876	—65,800	—40,200

MILITARY PERSONNEL, NAVY

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters	9,393		
Foreign Currency Savings	-1,000		-3,000
Service Academies Foreign Students	-1,000		-1,000
Personnel Understrength Savings ..	-10,000		-10,000
Unemployment Compensation Savings	-10,000		-10,000
Family Separation Allowance	9,300		9,300
Contingency Operations Transfer-Bosnia	7,100	7,100	7,100
Total, Military Personnel, Navy	3,793	7,100	-7,600

MILITARY PERSONNEL, MARINE CORPS

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters	2,736		
Foreign Currency Savings			-1,000
Personnel Understrength Savings ..	-3,600		-3,600
Family Separation Allowance	-3,600		-3,600
Unemployment Compensation Savings	-10,000		-10,000
Contingency Operations Transfer-Bosnia	1,300	1,300	1,300
Total, Military Personnel, Marine Corps	-5,964	1,300	-9,700

MILITARY PERSONNEL, AIR FORCE

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters	8,654		
Temporary Early Retirement Program	-147,836		-57,836
Foreign Currency Savings	-1,000		-3,000
Service Academies Foreign Students	-1,000		-1,000
Personnel Understrength Savings ..	-18,000		-44,600
Family Separation Allowance	2,500		2,500
Contingency Operations Transfer-Bosnia	47,000	47,000	47,000
B-52 Force Structure		4,500	4,500
Total, Military Personnel, Air Force	-109,682	51,500	-52,436

NATIONAL GUARD AND RESERVE FORCES

The conferees agree to provide \$9,284,911,000 in Reserve personnel appropriations, \$9,310,912,000 in Operation and maintenance appropriations, and \$653,000,000 in the National Guard and Reserve Equipment appropriation. These funds support a Selected Reserve strength of 892,597 as shown below.

RESERVE STRENGTHS

	Fiscal year 1998		
	Budget	Conference	Conference vs. Budget
Selected Reserve:			
Army Reserve	208,000	208,000	

	Fiscal year 1998		
	Budget	Conference	Conference vs. Budget
Navy Reserve	94,294	94,326	+32
Marine Corps Reserve	42,000	42,000	
Air Force Reserve	73,431	73,598	+167
Army National Guard	366,516	366,516	
Air National Guard	107,377	108,157	+780
Total	891,618	892,597	+979
AGR/TARS:			
Army Reserve	11,500	11,500	
Navy Reserve	16,136	16,168	+32
Marine Corps Reserve	2,559	2,559	
Air Force Reserve	963	963	
Army National Guard	22,310	22,310	
Air National Guard	10,616	10,671	+55
Total	64,084	64,171	+87
Technicians:			
Army Reserve	6,501	6,501	
Air Force Reserve	9,622	9,659	+37
Army National Guard	25,250	25,250	
Air National Guard	22,968	23,068	+100
Total	64,341	64,478	+137

RETENTION OF MILITARY LEAVE FOR FEDERAL EMPLOYEES

The conferees reject the budget request proposal to eliminate military leave for those members of the Reserve components who are Federal employees.

RESERVE MOBILIZATION INCOME INSURANCE PROGRAM

The conferees include language in section 8005 of the general provisions which provides the Department of Defense reprogramming authority to meet its financial obligations with respect to the termination of this program in the absence of a supplemental appropriation.

RESERVE PERSONNEL, ARMY

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Unit Readiness/Training	8,000		
Basic Allowance for Quarters	569		
Reserve Duty Drill Pay	20,400	20,400	20,400
Health Scholarship Stipend	-7,800	-7,800	-7,800
Personnel Understrength Savings			-5,000
Total, Reserve Personnel, Army	21,169	12,600	7,600

RESERVE PERSONNEL, NAVY

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters ..	648		
Reserve Duty Drill Pay	8,500	8,500	8,500
Health Scholarship Stipend	-9,000	-9,000	-9,000
Magic Lantern Aircraft	1,700		1,700
Total, Reserve Personnel, Navy	1,848	-500	1,200

[In thousands of dollars]

NAVY RESERVE FORCES

The conferees concur in the House direction regarding Navy Reserve Forces.

RESERVE PERSONNEL, MARINE CORPS

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Annual Training/School Tours	7,000		7,000
Basic Allowance for Quarters	183		
Reserve Duty Drill Pay	3,700	3,700	3,700
Total, Reserve Personnel, Marine Corps	10,883	3,700	10,700

RESERVE PERSONNEL, AIR FORCE

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters	266		
Reserve Duty Drill Pay	8,200	8,200	8,200
Health Scholarship Stipend	-8,800	-8,800	-8,800
WC-130 Weather Reconnaissance	170		170
C-130 Force Structure		1,409	1,409
Total, Reserve Personnel, Air Force	-164	809	979

NATIONAL GUARD PERSONNEL, ARMY

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
School/Special Training	10,000	115,000	40,000
Basic Allowance for Quarters	1,520		
Reserve Duty Drill Pay	33,200	33,200	33,200
Annual Training		33,000	15,000
Inactive Duty Training		20,000	10,000
Initial Entry Training		35,000	30,000
Bonus/Transition Benefits		10,000	5,000
Total, National Guard Personnel, Army	44,720	246,200	133,200

NATIONAL GUARD PERSONNEL, AIR FORCE

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]			
	House	Senate	Conference
Basic Allowance for Quarters	705		
Reserve Duty Drill Pay	11,000	11,000	11,000
C-130 Force Structure		4,000	4,000
Total, National Guard Personnel, Air Force	11,705	15,000	15,000

TITLE II—OPERATION AND MAINTENANCE

A summary of the conference agreement on the items addressed by either the House or the Senate is as follows:

	Budget	House	Senate	Conference
O&M, ARMY	17,049,484	17,078,218	16,913,473	16,754,306

REAL PROPERTY MAINTENANCE

The conferees are concerned about the extensive backlog of real property maintenance in the Department of Defense and the effect this has on the morale of U.S. service personnel. Accordingly, the conferees agree to provide a total of \$724,620,000, of which \$360,000,000 is provided in the Quality of Life Enhancements, Defense account. The conferees also agree that, of the funds for real property maintenance provided within Operation and Maintenance, Army at \$15,000,000 shall be used for demolition requirements previously identified by the Department of the Army. In the case of real property maintenance funding provided directly to the services' Operation and maintenance accounts, the conferees agree the Department of Defense should provide written notification to the congressional defense committees for transfers of greater than \$15,000,000 to or from the total real property maintenance amount provided to each service.

OPERATION AND MAINTENANCE BUDGET
EXECUTION DATA

The conferees support the position expressed in the House report accompanying the Defense Appropriations bill for fiscal year 1998 requiring the Department of Defense to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than forty-five days past the close of each quarter of the fiscal year, and should provide data for each O-I budget activity, activity group, and subactivity for each of the active, defense-wide, reserve and national guard components. These reports should also include: the budget request and actual obligations for each O-I budget activity, activity group, and subactivity; the DoD distribution of any unallocated congressional adjustments to the budget request to each budget activity, activity group, and subactivity group; and, adjustments to each budget activity, activity group and subactivity group resulting from DoD reprogramming actions.

OPERATION AND MAINTENANCE REPROGRAMMING

The conferees agree that proposed transfers of funds between O-I budget activities in excess of \$15,000,000 are subject to normal, prior approval reprogramming procedures.

The Department should also follow prior approval reprogramming procedures for the cumulative value of transfers in excess of \$15,000,000 into or out of the following O-I subactivity groups.

Operation and Maintenance, Army

Depot maintenance.

Operation and maintenance, Navy

Aircraft depot maintenance, ship depot maintenance, and Intermediate maintenance.

Operation and maintenance, Marine Corps

Depot maintenance.

The conferees further direct the Secretary of the Air Force to identify in separate budget subactivities depot maintenance for budget activity one and budget activity two in the fiscal year 1999 budget request and subsequent budget requests. In addition, due to continuing concerns about force readiness and the apparent diversion of Operation and maintenance funds, the conferees agree that the Department should provide written notification of the congressional defense committees for the cumulative value of any and all transfers in excess of \$15,000,000 from or into the following budget activities and subactivity group categories:

Operation and maintenance, Army

Land Forces: Divisions, Corps combat forces, Corps support forces, Echelon above corps forces, Land forces operations support; Land Forces Readiness: Land forces depot maintenance.

Operation and maintenance, Navy

Air Operations: Mission and other flight operations; Fleet air training, Aircraft depot maintenance; Ship Operations: Mission and other ship operations, Ship operational support and training, Intermediate maintenance, Ship depot maintenance.

Operation and maintenance, Marine Corps

Expeditionary Forces: Operational forces, depot maintenance.

Operation and maintenance, Air Force

Air Operations: Primary combat forces, Primary combat weapons, Air operations training; Mobility Operations: Airlift operations, payments to the transportation business area.

DEFENSE COMPUTER INVESTIGATIONS TRAINING
PROGRAM

COMPUTER FORENSICS LAB

The conferees support the Department of Defense efforts to improve information security and investigative capabilities related to computer crimes. The conferees urge the Department of Defense to allocate \$8,500,000 of the funds available in Operation and Maintenance, Navy and \$2,700,000 available in Operation and Maintenance, Air Force to improve capabilities in this area. Further, the conferees direct that the Department of Defense fully fund these activities in the fiscal year 1999 budget request.

CHEMICAL-BIOLOGICAL DEFENSE FUNDING

The conferees recommend that the Department of Defense use existing facilities with explosives ranges capable of handling large blasts and existing instructional and research programs in response to blast, radiological, biological and chemical threats.

(In thousands of dollars)

450 LAND FORCES OPERATIONS SUPPORT	658,067	658,067	658,067	658,067

DISTANCE EDUCATION

The conferees recognize that in recent nationwide surveys, one out of three homeless men identifies himself as a military veteran. The conferees further recognize that a significant percentage of the thousands of men and women leaving the armed forces each year are doing so without having earned either an associates or bachelors degree. This lack of formal education credentials may be making it more difficult for veterans to secure good jobs following their military service. Therefore, the conferees encourage the Department to explore distance education initiatives that could assist active duty personnel and their family members, DoD civilian employees and veterans in pursuing college-level degrees. These distance education degree-granting initiatives must be portable so that they can be pursued regardless of changes of duty station.

ENVIRONMENTALLY SAFE FUEL STORAGE TANKS

The conferees support Department of Defense efforts to develop and install environmentally safe fuel storage tanks. Accordingly, the conferees direct that \$2,000,000 of the funds in Operation and Maintenance, Marine Corps, and \$2,000,000 of the funds made available in Operation and Maintenance, Air Force be used to support such efforts.

NORTHERN MARIANA ISLANDS

The conferees are aware of communications between the Government of the Northern Mariana Islands and the Department of Defense concerning future development of certain lands on the island of Tinian in the Commonwealth of the Northern Mariana Islands under lease to the United States. Accordingly, the conferees believe the Secretary of Defense should consider a development plan approved by the Government of the Commonwealth of the Northern Mariana Islands to be a "Permitted Use" within the meaning of Article 1, Subsection D of the Leaseback and Disposal Agreement between the Commonwealth of the Northern Mariana Islands and the United States of America dated August 4, 1994, provided that (1) such a plan has been approved by the Government of the Commonwealth of the Northern Mariana Islands, and (2) the plan does not preclude use of the land for urgent military purposes.

3815 Non-BRAC Caretaker Station	-40,000
3835 Capitol Memorial Events	400

DEPOT MAINTENANCE

The conferees recommend increasing the Army depot maintenance funding by \$143,200,000 above the budget request. In addition, \$16,000,000 is provided in budget activity 4, Administration and Service-wide support to provide for transportation and warehousing costs associated with the increase in the funded depot maintenance program. The conferees remain concerned about backlogs in the repair and maintenance of communications and electronic equipment. Accordingly, \$43,500,000 of the total depot maintenance increase is allocated to the U.S. Army Communications-Electronics Command Battlefield Communications Review program, for performance at Army depots, of the following workloads: \$21,000,000 for repair/maintenance of Mobile Subscriber Equipment shelters, prime movers, and accessories or support equipment; \$15,800,000 for the repair/maintenance of Non-Integrated Communications Secure and Integrated Communications Secure SINCGARS radios and accessories or support equipment; and \$8,700,000 for the repair, maintenance or modification of the AN/TS-85 and AN/TSC-93 Tactical Satellite Communications Terminals, associated antenna systems, accessories or support equipment.

In addition, the conferees are concerned about the increasing backlog of depot maintenance workload associated with inventory drawdowns in support of contingency operations. Accordingly, the conferees rec-

ommend that the Army apply \$30,000,000 of the total increase to this workload.

ARMY LOGISTICS AUTOMATION

The House and Senate bills each addressed separate shortfalls totaling \$46,900,090 in Army Logistics Automation. The conferees agree to provide \$20,000,000 in Operations and Maintenance, Army and \$10,000,000 in Other Procurement, Army (LOGTECH) to support both these critical efforts.

AIR BATTLE CAPTAIN PROGRAM

The conferees concur with the funding provided for the continuation of the Air Battle Captain program, and direct that program continue to accept new students.

EISENHOWER CENTER

The conferees have provided \$2,000,000 only for the Eisenhower Center for military history and education efforts focusing on combat leadership, motivation, endurance and including historical exhibits, equipment, and the collection, transcribing, and cataloging of oral histories and written memoirs of combat veterans

NORTH STAR BOROUGH LANDFILL

Of the funds provided in this account, the conferees direct the Department of the Army to provide \$5,000,000 for developmental costs associated with the expansion of the North Star Borough landfill.

OPERATION AND MAINTENANCE, NAVY

9425 Real Property Maintenance	14,924
9430 TDY Expenses	-15,060
9435 QDR—Civilian Personnel Reductions	-17,000
9450 Magic Lantern	1,300

SHIP DEPOT MAINTENANCE

The conferees agree to provide \$2,100,690,000 for ship depot maintenance, and delete the language recommended by the Senate establishing a floor on ship depot maintenance funding. The conferees' recommendation will provide the fleet commanders flexibility in managing their operation and maintenance funds during the fiscal year, in recognition that emergencies can lead to funding shortfalls. However, the conferees strongly urge the Navy leadership to ensure that all funds provided for ship maintenance are used solely for that purpose except in the most unusual of circumstances.

The conferees understand that the Navy will initiate a pilot program beginning on October 1, 1997 to study whether combining fleet intermediate facilities with Navy shipyards might yield economies of scale and allow maintenance managers to better balance workloads in the Navy shipyards. The conferees believe it will take at least two

years before the Navy can determine whether this new arrangement is in fact cost effective and should be made permanent or expanded to other locations. Therefore, the conferees direct that the pilot program shall not be expanded until six months after the Navy reports to the Committees on Appropriations on its findings, and that such report shall be made on or after April 1, 1999. Further, the conferees direct that the Navy shall not make any changes to the workforce in terms of total numbers of employees and shall not change the name of the Navy activity involved or make any permanent changes until this pilot study has been completed and evaluated by the Congress. The conferees are hopeful that the study will lead to significant improvements in Navy maintenance functions and look forward to approving permanent changes throughout the Navy beginning in fiscal year 2000.

1998 WORLD EXPOSITION

The conferees understand that the Navy has requested to participate as one of the United States Government sponsors of the U.S. exhibit focused on ocean research and technology at the 1998 World Exposition in Lisbon, Portugal. Should the Secretary of the Navy determine that Navy participation is beneficial to the interests of the service, the conferees agree that adequate funds should be made available from the Operation and maintenance account to assist in the creation and operation of the U.S. national pavilion. Funds shall be used to exhibit defense capabilities in global oceanography and environmental security to include interaction among NOAA and the appropriate entities of the Department of Defense.

OPERATION AND MAINTENANCE, MARINE CORPS

ADJUSTMENTS TO BUDGET ACTIVITIES
Adjustments to the budget activities are as follows:

[In thousands of dollars]

Budget Activity 1: Operating Forces:

12600	Flying Hour Program Shortfalls (AVDLR Shortfall)	240,000
12600	B-52 Attrition Reserve ...	42,400
12600	SR-71	30,000
12600	Battle Labs	1,000
12600	Contingency Operations Transfer	-459,900
12700	NBC Defense Program	3,100
12850	Force Protection-Base Physical Security	12,100
12905	JCS Exercises and Headquarters Reduction	-18,000
13100	SIMVAL	1,800
13250	JFACC Situational Awareness System (JSAS)	1,500
13450	Spacetrack	1,400

Budget Activity 2: Mobilization:

13850	Flying Hour Program Shortfalls (AVDLR Shortfall)	60,000
13850	Depot Maintenance-KC-135 DPEM	54,600
13950	Industrial Preparedness-Nominal Growth	-5,105

Budget Activity 3: Training and Recruiting:

14300	Service Academies-For-foreign Students	-1,400
14600	Training Infrastructure Reduction	-21,000
14700	Training Infrastructure Reduction	-13,000
14750	Training Infrastructure Reduction	-13,000
14950	Recruiting and Advertising	2,200

Budget Activity 4: Administration and Servicewide Activities:

15500	FEMP	-33,000
15650	HEADQUARTERS AND ADMINISTRATIVE ACTIVITY REDUCTION	-52,700
15950	CAMP	500
15950	Pentagon Reservation Transfer	-29,600
16050	Civil Air Patrol—Counterdrug Activities	2,800
16050	Civil Air Patrol Corporation	800
16410	Classified Undistributed	4,000
16415	Civilian Personnel Under Strength	-7,700
16430	Foreign Currency Fluctuation	-24,000
16475	REMIS	-8,900
16475	High Risk Automation Systems	-25,000
16487	Revised Economic Assumptions	-46,000
16490	Other Contracts—Program Growth	-93,981
16495	Chemical/Biological Defense—PACOM	10,000
16505	Real Property Maintenance	100,384
16510	TDY Expenses	-23,000
16515	QDR—Civilian Personnel Reductions	-36,000

B-52S

The conferees provide a total of \$57,300,000 to fund attrition reserve B-52 aircraft:

Operation and maintenance	\$42,400,000
Aircraft procurement; mods	10,400,000

[In thousands of dollars]

Military personnel 4,500,000

The conferees direct that this funding be used to operate and maintain the current force structure of 94 B-52s and to continue standard maintenance and upgrades on the attrition reserve aircraft. For the purposes of this procurement funding, the conferees direct the Air Force to treat all 94 B-52s now in the force structure as planes to be retained for the six-year period beginning October 1, 1997.

WILLIAM LEHMAN AVIATION CENTER

The William Lehman Aviation Center at Florida Memorial College—a Historically Black College located in Miami, Florida—is well positioned to assist in the recruitment and training of minorities in military aviation. The conferees urge the Department of the Air Force to work closely with the College in fully utilizing and developing FMC's faculty, equipment, facilities and expertise.

ENVIRONMENTAL QUALITY RESPONSIBILITIES

The conferees are concerned of potentially duplicative activities undertaken by the Air Force Center for Environmental Excellence (AFCEE) and other Departmental environmental centers. The conferees direct that the Air Force review this situation and take prompt action to ensure that the mission and responsibilities of the AFCEE fully conform to the commitments made by the Air Force when this center was first established and that its activities are focused on the mission for which it was established.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

The conference agreement on items addressed by either the House or the Senate is as follows:

19045	Defense Automated Printing Service	-8,000
19090	QDR Defense Agency Reductions	-37,000

DEFENSE FINANCE AND ACCOUNTING SERVICE

The Department requested \$91,654,000 for activities that the conferees believe are more properly funded through the Defense Working Capital Fund. The conferees therefore agree to a reduction of \$21,000,000 and direct DFAS to budget for these activities within the Defense Working Capital Fund in future budget submissions.

DEFENSE HUMAN RESOURCES FIELD ACTIVITY

The conferees agree to provide \$138,935,000 for the Defense Human Resources Field Activity, a reduction of \$2,000,000 from the President's Budget. The conferees direct that none of this reduction be taken against the Department's very successful efforts with Operation Mongoose.

DEFENSE LOGISTICS AGENCY

The Defense Logistics Agency (DLA) budget included \$42,900,000 for expenses that were

in the Defense Working Capital Fund (DWCF). Of these the conferees believe that \$36,000,000, as identified in House Report 105-206, should have stayed within the DWCF and directs DLA to budget for these expenses within the DWCF in the future.

NATIONAL IMAGERY AND MAPPING AGENCY

The conferees agree to delete House language, but expect the National Imagery and Mapping Agency (NIMA) to abide by its commitment and recent Policy Directive 8600R1 that a qualifications based selection (QBS) process for mapping, charting and geodesy service contracts will be used and that NIMA will seek a revision to the Federal Acquisition Regulations to this effect.

NEW PARENT SUPPORT PROGRAM

The conferees agree that the New Parent Support Program complements and works in concert with all programs associated with violence prevention, child development and family advocacy. In recent years, funds have been provided for expansion of this program within all the Services. The conferees encourage the Department to continue funding this program at current levels during fiscal year 1998, and to budget sufficient resources in future budget submissions.

INDUSTRIAL MODERNIZATION

The conference report includes \$50,000,000 only for projects or programs to assist in the commercial reutilization and modernization of government industrial complexes no longer in service. The conferees direct that such funds be used to support no more than 10 percent of the total project cost, and be committed only for projects that are determined by the Secretary (1) to be financially self-sustaining over the long-term, and (2) to enhance the national defense. The conferees intend that these funds be used for grants for operational transition, planning, and training costs.

RESERVE PEACETIME SUPPORT TO ACTIVE DUTY AND CIVILIAN ACTIVITIES

The conferees agree to provide \$10,000,000 for Reserve peacetime support to active duty and civilian activities. The conferees direct the Department of Defense to report to the Committees on Appropriations on how the fiscal year 1997 funding was allocated by theater, activities or exercises supported by this program, and the number of reservists by service who participated under this initiative. This report is to be provided not later than January 15, 1998.

CIVIL MILITARY PROGRAMS

The conferees recommend a total of \$72,000,000 for civil/military programs for fiscal year 1998 as follows:

[In thousands of dollars]

Youth Challenge program	48,000
Innovative Readiness Training	20,000
Starbase youth program	4,000
Total	72,000

ON-SITE INSPECTION AGENCY

The conferees have agreed to reduce funding for the On-Site Inspection Agency. If additional funds prove necessary to meet emergent requirements stemming from valid treaty obligations, the conferees expect the Department of Defense to submit a reprogramming request subject to normal, prior approval reprogramming procedures.

TRAVEL REENGINEERING

The Department of Defense report on Travel Reengineering states that the Department spends approximately \$3,000,000,000 annually on temporary duty travel. Of this amount, 15 to 30 percent is for management overhead costs. The Department believes that, through reengineering, they can reduce these costs by more than half, a savings of over \$300,000,000 per year. The conferees are supportive of these goals, but remain concerned about how DoD will identify and capture

these savings. The conferees therefore direct the Department to provide a detailed report, no later than January 1, 1998, of what savings it expects to result from implementing this program in Travel Region 6, where those savings will come from and how DoD intends to capture those savings in its future budget requests. The conferees also direct the Department to provide a similar report with respect to full implementation prior to expanding this program beyond Travel Region 6.

LEGACY

Of the funds appropriated for the Legacy program, the Committee directs that \$100,000 be utilized to develop a management plan, in cooperation with the appropriate state and local entities, to preserve and protect the Revolutionary War gunboat that was recently discovered on the bottom of Lake Champlain.

JOB PLACEMENT PROGRAM

The Conferees direct the Department of Defense to provide at least \$6,000,000 from within available funds for the implementation of a combined job placement and community outreach services program. This program should market and coordinate involvement of existing qualified service providers through the Job Training Partnership Act, facilitate municipal offering of community outreach services and provide data for the evaluation of federal job placement programs. This program should be implemented in communities where military bases have undergone downsizing.

OPERATION AND MAINTENANCE, ARMY RESERVE

The conference agreement on items addressed by either the House or the Senate is as follows:

[In thousands of dollars]

		Budget	House	Senate	Conference

Total adjustments	+87,000

MILITARY PERSONNEL INFORMATION SYSTEMS

The conferees have agreed to provide \$89,000,000 only for Military Personnel Information Systems and support the direction in House Report 105-206 on management control and use of these programs and funds by the Commander, Naval Reserve Forces. Of the funds identified in the House report, only \$11,500,000 is specifically for the Navy Standard Integrated Personnel System (NSIPS) and \$5,000,000 is for the Joint Requirements and Integration Office. These funds are in addition to those already budgeted for these programs. The remaining funds are for all the related activities described in the House report, such as continuing the Navy central design activity consolidation and providing initial outfitting equipment and infrastructure support for information system facilities.

The conferees direct the Navy and DoD to ensure that no other military personnel information system initiatives duplicate NSIPS or the DoD objective personnel system, now known as the Defense Integrated Military Human Resources System (DIMHRS). The conferees also direct DoD and the services to identify and allocate acquisition certified personnel for the DIMHRS Joint Program Management Office no later than November 1, 1997 and to fully fund and budget for NSIPS and DIMHRS.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

The conference agreement on items addressed by either the House or the Senate is as follows:

26912 Stock Fund Secondary Items 7,500
26915 Software Acquisition and Security Training 5,000
Total adjustments +160,700

MAINTENANCE OF REAL PROPERTY

The conferees recommend \$85,000,000 above the budget request for maintenance of real property for Army National Guard facilities. The conferees direct that these funds be used to reduce the growing backlog within the 54 Army National Guard organizations, not for studies or other administrative functions.

CHEMICAL/BIOLOGICAL DEFENSE AND COUNTER TERRORISM MISSION PLANNING

The conferees recommend \$10,000,000 only to support efforts to develop the National Guard's domestic chemical/biological counter terrorism mission. The conferees reiterate the directive in the House report and strongly endorse efforts to accelerate implementation of this important mission. The conferees expect the National Guard to develop a mission plan that is fully coordinated with all related plans and programs of the Office of the Secretary of Defense, the active forces, and all other Reserve Components so as to leverage existing capabilities to the maximum extent possible. A mechanism for review and input from all relevant organizations must be an integral part of this planning effort. The conferees also intend that a portion of these funds may be used to conduct joint, interagency training for federal, state, and local responders with

respect to counter terrorism operations and the defense against weapons of mass destruction and for testing and evaluating equipment related to the support of the chemical/biological defense mission.

HOME STATION MOBILIZATION

The conferees support the expansion of Home Station Mobilization during fiscal year 1998, as a way to reduce mobilization costs and increase the availability of the Reserve Components. The conferees direct the Department of the Army to report to the congressional defense committees on how this program can be expanded in both the Army National Guard and the Army Reserve not later than January 15, 1998. The report should also provide a timetable to implement the results of this review during fiscal year 1998. It should address costs (both personnel and resources) associated with deploying from home station versus a mobilization station and recommendations regarding mission transfers to the Reserve Components.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

The conference agreement on items addressed by either the House or the Senate is as follows:

	Budget	House	Senate	Conference
27500 OPERATION AND MAINTENANCE, AIR NATIONAL GUARD				
27550 BUDGET ACTIVITY 1: OPERATING FORCES				
27600 AIR OPERATIONS				
27650 AIRCRAFT OPERATIONS	2,243,510	2,245,010	2,262,573	2,262,573

ADJUSTMENT TO BUDGET ACTIVITIES

Adjustments to the budget activities are as follows:

[In thousands of dollars]

Budget Activity 1: Operating Forces:
27650 Aircraft Operations/159th Fighter Group 1,500
527650 Aircraft Operations/C-130 Force Structure 13,063
27650 Aircraft Operations/C-130 Operations 4,500
27850 Depot Maintenance 3,000

Total adjustments +22,063

OVERSEAS CONTINGENCY OPERATIONS

TRANSFER FUND

The conferees agree to provide \$1,884,000,000 for the Overseas Contingency Operations Transfer Fund. The conferees agree to realign funding for operations in Southwest Asia from the services' Operation and maintenance accounts into the Overseas Contingency Operations Transfer Fund. Accordingly, the conferees agree to transfer \$416,500,000 into this account.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

The conference agreement provides \$6,952,000 for the United States Court of Appeals of the Armed Forces as requested in the budget.

ENVIRONMENTAL RESTORATION, ARMY

The conferees agree to provide \$375,337,000 for Environmental Restoration, Army.

ENVIRONMENTAL RESTORATION, NAVY

The conferees agree to provide \$275,500,000 for Environmental Restoration, Navy.

ENVIRONMENTAL RESTORATION, AIR FORCE

The conferees agree to provide \$376,900,000 for Environmental Restoration, Air Force.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The conferees agree to provide \$26,900,000 for Environmental Restoration, Defense-Wide.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

The conferees agree to provide \$242,300,000 for Environmental Restoration, Formerly Used Defense Sites.

NEWMARK

The conferees understand that both the Environmental Protection Agency (EPA) and the City of San Bernardino believe that the Newmark and Muscoy plume contamination in San Bernardino, CA is a direct result of industrial waste from a World War II depot and maintenance facility (Camp Ono). The report accompanying the fiscal year 1997 DoD Appropriations Act highlighted the urgency of this problem and requested prompt action by the Department of Defense. Because the Department has not adequately responded to last year's report language concerning this important issue, the conferees direct the DoD, within 90 days of enactment of this Act, to provide a report to the congressional defense committees which fully explains the Department's current and future plans relating to its role in the cleanup of the Newmark/Muscoy site.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The conferees agree to provide \$47,130,000 for Overseas Humanitarian, Disaster and

[In thousands of dollars]

Civic Aid. The conferees direct that none of the reduction should be taken against the Department's demining efforts. In addition, the conferees expect the Department of Defense to coordinate its efforts on the rehabilitation of land mine victims with other U.S. Government agencies performing similar activities, including any center devoted to these efforts within the Department of Education.

FORMER SOVIET UNION THREAT REDUCTION

The conferees agree to provide \$382,200,000, for the Former Soviet Union Threat Reduction program.

QUALITY OF LIFE ENHANCEMENTS, DEFENSE

The conferees agree to provide a total of \$360,000,000 for Quality of Life Enhancements, Defense. Given the substantial backlog of real property maintenance in the areas of barracks, dormitories and related facilities, the conferees direct that these funds be applied to workload for such projects. The conferees further direct the Secretaries of each of the Military Services to provide the congressional defense committees with a report on each additional project to be funded from funds available in this account prior to solicitation for these projects. This report shall include the location, estimated cost and projected commencement and completion dates for each project.

TITLE III—PROCUREMENT

KINETIC ENERGY TANK AMMUNITION

The conferees are concerned that there may be a break in production between the current 120mm kinetic energy round, the M829A2, and the follow-on round, the M829E3.

The conferees direct the Army to maintain M829A2 future annual production at minimum sustaining levels and accelerate the development of the M829E3. The conferees direct the Army submit to the congressional defense committees their plan for funding

M829A2 production and maintaining the capability to produce kinetic energy rounds no later than December 15, 1997.

(Note: Funds transferred to Missile Procurement, Army)

FAMILY OF MEDIUM TACTICAL VEHICLES

The conferees strongly support the Army's Family of Medium Tactical Vehicle (FMTV) acquisition strategy. The conferees endorse the Army's plan to continue procuring FMTV's from the current producer while qualifying a second source in fiscal year 1998 and 1999. The conferees agree to provide the authority in Section 8008 to enter into a multiyear contract for the FMTV.

COMMANDER'S TACTICAL TERMINAL/JOINT TACTICAL TERMINAL

The conferees agree that the amounts appropriated in fiscal year 1998 and prior year funds be used to re-award the Joint Tactical Terminal (JTT) contract and to procure only urgently needed Commander's Tactical Terminals (CTT) in fiscal year 1998 until the production under a new contract progresses

sufficiently to minimize the fielding gap between these two terminals.

DIRECT SUPPORT ELECTRICAL SYSTEMS TEST SETS (DSESTS)

The conferees encourage the Department of Defense to include DSESTS in the automatic test equipment family.

AIRCRAFT PROCUREMENT, NAVY

CH-60 HELICOPTERS

The conferees agree to provide \$30,400,000 only to procure 2 CH-60 helicopters for the Naval Reserve.

AV-8B HARRIER ENGINES

The conferees recognize the need to replace engines in AV-8B Harrier trainer aircraft, and would welcome a reprogramming request

from the Department of Defense should it elect to address this requirement in fiscal year 1998.

P-3

The conferees are disturbed by the Navy's approach to budgeting for the P-3 Sustained Readiness Program (SRP). The conferees direct the Navy to budget for the purchase of

no less than 20 SRP kits and for the installation of 15 SRP kits in fiscal year 1999, in order to obtain best value for the Department of Defense in accordance with the Variation in Quantity contract signed by the Navy.

TOMAHAWK

The budget request includes \$51,820,000 to procure 65 Block III Tomahawk missiles in

fiscal year 1998. The Navy has recently informed the conferees that it is working on a proposal to develop and produce a new vari-

ant of this missile, to be known as the Tactical Tomahawk or the Block IV+. It would

be the Navy intention to forgo the procurement of the 65 Block III Tomahawk's in fiscal year 1998 and use these funds, in part, for the accelerated development of the new Block IV+. While the conferees support a program to upgrade the capabilities of the Tomahawk missile and reducing the missile's unit cost, there remains many acquisition and funding issues to be resolved before favorable consideration of the proposed funding realignment can be granted. The con-

ferees encourage the Navy to submit a re-programming action once these issues are resolved.

5/54 GUN MOUNT MODIFICATIONS

The conferees agree to provide \$13,241,000 for the procurement of gun safety, shock hardening, and fire support Ordalts kits for the 5 inch MK-45 and MK-75 gun mounts.

WEAPONS INDUSTRIAL FACILITIES

The conferees agree to provide \$30,432,000 for capital rehabilitation projects at govern-

ment-owned, contractor operated plants for Navy missile systems, a reduction of \$4,500,000 from the budget request. The conferees direct that none of the reduction may be applied to the amounts requested in the budget for facilities restoration at the Allegheny Ballistics Laboratory.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

The conference agreement is as follows:

	Budget	House	Senate	Qty.	Conference
[In thousands of dollars]

ECONOMIC ASSUMPTIONS			-72,000	-72,000

CVN REFUELING OVERHAULS

The conferees agree to provide \$1,615,003,000 for complex overhaul of the U.S.S. Nimitz (CVN-68). Within that amount, \$20,000,000 is only for installation of the ship self-defense system. The conferees do not agree to bill language proposed by the House concerning overhaul of CVN-69, which is no longer necessary since the Navy has committed to include ship self-defense and cooperative engagement capability as part of the overhaul of the ship.

DDG-51

The conferees agree to provide \$3,411,200,000 for 4 ships. This includes: increases of \$720,000,000 for another ship, \$15,233,000 for

acceleration of baseline 6 hardware and software for theater ballistic missile defense, and \$14,000,000 only for installation of cooperative engagement capability on 1 ship; and a decrease of \$3,800,000 resulting from saving due to foreign military sale of Aegis equipment. The conferees do not agree to bill language proposed by the House concerning theater ballistic missile defense, but direct the Navy to include cooperative engagement capability and theater ballistic missile defense capability on a significant number of the DDG-51 ships to be procured under a 14 ship multiyear contract.

CRUISER CONVERSION

The conferees agree to the House report language endorsing the Navy plan to com-

pete conversion of its 27 Aegis cruisers. This direction does not supersede current Navy policy concerning homeport overhauls.

LCAC SERVICE LIFE EXTENSION

The conferees agree to provide \$20,000,000 and concur with the House report language. Since this program will extend the original capital investment in these craft in lieu of replacement, the conferees direct the Navy to use Shipbuilding and Conversion for all elements of the service life extension program.

OTHER PROCUREMENT, NAVY

The conference agreement is as follows:

UYQ-70/cruisers	+10,000	+5,000

PORT SECURITY UNIT EQUIPMENT

The conferees agree to provide \$13,500,000 only for port security unit equipment for the Coast Guard.

JOINT U.S./U.K. SSTD PROGRAM

The conferees note that the Department of Defense has commissioned an independent study to review the Surface Ship Torpedo Defense (SSTD) program. The conferees note that a joint U.S./U.K. collaborative SSTD program has been under way since 1988 on a 50/50 cost share basis, until the findings of the independent study are reported and acted upon, the conferees direct the Department of Defense to continue the joint U.S./U.K. collaborative program.

CHOKE POINT SURVEILLANCE SYSTEM

The conferees understand that the Choke Point Surveillance System (CPSS), in conjunction with forces ashore and land attack missile capable ships, can provide a real-time integrated surveillance and targeting system. The conferees direct the Navy to investigate the possible funding and incorporation of CPSS into future weapon system plans and to provide a report to the Appropria-

tions Committees of the House and Senate prior to submission of the fiscal year 1999 budget on its recommendations regarding the CPSS program.

NAVY TACTICAL DATA SYSTEM

The conferees agree to provide \$25,000,000 for the Navy Tactical Data System. Within that amount \$5,000,000 is only to install AN/UYQ-70 full production workstations on Aegis cruisers for execution only by the navy's Tactical Embedded Computer Resources office.

IT-21

The Secretary of the Navy shall report to the Committees on Appropriations that funds allocated for IT-21 implementation will be spent in accordance with the letter and spirit of the Federal Acquisition Regulation and meet the requirements for security, scalability, network management, real time processing, and reliability as outlined in the Joint Technical Architecture.

JEDMICS

The Joint Engineering Data Management Information and Control System (JEDMICS)

requires the incorporation of a security solution in order to prevent unauthorized access, as required by National Security Policy and federal regulations. To meet near term and future requirements the security system must be a Ratings and Maintenance Phase derivative of a product evaluated at the National Security Agency (NSA) B2 level for Information Security; meet NSA's Communications Security requirements for encryption of information from user desktop to JEDMICS servers; provide true multilevel security at the network level; and be a product of US origin. Therefore, the conferees provide \$5,000,000 in Other Procurement, Navy to be used only to procure and integrate into JEDMICS a security system meeting the above requirements. Due to the critical nature of JEDMICS, the conferees expect the Department to execute a contract as soon as practicable.

B-2

The conferees provide \$331,000,000 for B-2 procurement for long-lead activities related to the procurement of additional B-2s or for upgrades to the existing B-2 force to improve mission capabilities, deployability, and maintainability.

The conferees recognize that significant disagreement exists on the question of continued low-rate production of additional B-2 stealth bombers. The conferees believe the question over whether to continue with low-rate B-2 production is a critical national security matter which must be decided on the basis of future national security requirements, projected threats, and affordability. Therefore, the conferees have included a general provision (Section 8131) establishing a panel to review and make recommendations on this matter. The panel shall report to the President and Congress no later than March 1, 1998 its conclusions and recommendations, including whether additional funds for the B-2 should be used for continued low-rate production of the B-2 or for upgrades to im-

prove deployability, survivability and maintainability.

F-22

The conferees agree with the House direction regarding F-22 Out Of Production Parts (OPPs). The conferees further agree that the authority provided in that direction applies only to the F-22. The conferees direct the military departments to seek the prior approval of the congressional defense committees to gain similar authority for other programs.

F-16 MODIFICATIONS

The conferees direct that all new production F-16 aircraft shall include On-Board Oxygen Generating Systems (OBOGS), including the six aircraft approved in fiscal year (FY) 1997. The conferees further direct that \$1,080,000 within the F-16 Modifications line shall be available only to make the necessary production changes to incorporate OBOGS in new production F-16's.

The conferees support the Air Force's planned four-year OBOGS installation program for F-16's scheduled to start no later

than fiscal year 2001, and the plan should include field installation.

AIR COMBAT TRAINING—RANGELESS (ACT-R)

KADENA INTERIM TRAINING SYSTEM (KITS)

The conferees are aware of a new air combat training capability recently delivered to Kadena Air Base, Okinawa. The Kadena Interim Training System (KITS) provides a new rangeless or untethered capability allowing it to be used on aircraft for air combat training anywhere there is available training airspace over land or sea. The conferees believe that systems like KITS can provide improvements to the readiness of our forward deployed forces. The conferees direct the Air Force to review and evaluate KITS as it applies to immediate air combat training requirements throughout the active and reserve component air forces and to submit a report to the Appropriations Committees on its procurement and fielding plans for this system.

MISSILE PROCUREMENT, AIR FORCE

GLOBAL POSITIONING SYSTEM (GPS)

The conferees agree to provide \$163,837,000 for the acquisition of three satellites in fiscal year 1998. The conferees agree that while the Air Force is procuring GPS satellites well in advance of their actual need, the total costs of modifying the present GPS multiyear contract are greater than the short term saving to be derived from defer-

ring the acquisition of one GPS satellite. The conferees direct the Department of the Air Force to submit an acquisition plan to the Appropriations Committees for the next multiyear procurement of GPS satellites which more closely aligns the acquisition of satellites with actual launch need dates. The Air Force is also directed to submit a report which compares the total costs of procuring

the next block of GPS satellites under the terms of a multiyear contract with the alternative of procuring the satellites under a base year contract with variable quantity options. These reports shall be submitted no later than March 31, 1998.

PROCUREMENT OF AMMUNITION, AIR FORCE

SECURE TERMINAL EQUIPMENT

The conferees direct that \$17,000,000 of the funds appropriated for Procurement, Defense-wide be made available only for the procurement of the tactical Secure Terminal Equipment program.

SOCOM PROCUREMENT OF NAVAL SPECIAL WARFARE BOATS

The recent acquisition strategy initiated by the Special Operations Command (SOCOM) to procure new Naval Special Warfare 33 foot rib boat systems resulted in an initial procurement of boat systems that cost about \$1,000,000 each, while other competitive designs being procured by other federal agencies were reportedly available for less than one-third that amount. The high

initial cost for this procurement prompts the conferees to encourage SOCOM to conduct a fresh review of the field of competition on the next round of procurement for large (30 foot and above) rib boats. The conferees request that SOCOM keep the Congressional defense committees informed of its plans for future procurement of this type.

ADVANCED SEAL DELIVERY SYSTEM

In response to a request from the Special Operations Command, the conferees have reduced the Advanced Seal Delivery System (ASDS) Procurement lines by \$36,400,000 and added the same amount to the Special Operations Tactical Systems Development project in Title IV to complete the final stage of ASDS development.

MISCELLANEOUS EQUIPMENT

The conferees agree that each of the Chiefs of the Reserve and National Guard components should exercise control of modernization funds provided in this account including aircraft and aircraft modernization. The conferees further agree that separate submissions of a detailed assessment of its modernization priorities by each of the Guard and Reserve component commanders is required to be submitted to the defense committees. The conferees expect the component commanders to give priority consideration to the following items: CH-47D helicopters,

F-14A modifications, magic lantern, F/A-18 modifications, C-9 replacement aircraft, CH-53 helicopters, C-5 simulators, vibration management enhancement program, UH-60L, laser leveling equipment, engagement skills trainers, MELIOS night vision devices, F-16 improved avionics intermediate shops, ultimate building machines, air defense alerting devices (ADAD), A-2 bradley upgrades, ALR-56 radar warning receiver, AN/TQM-41 MMS, avengers, theater deployable communication packages, dragon missile upgrades, multiple launch rocket system (MLRS), magic lantern spares, small arms simulators, senior

JSLIST PRODUCTION

The conferees recommend an increase of \$10,000,000 to the Marine Corps, specifically to cover the nonrecurring facilitation and equipment costs incurred by the three National Industries for the Severely Handicapped (NISH) affiliated community rehabilitation centers currently under contract that form Department of Defense Joint Service Lightweight Integrated Suits (JSLIST) program industrial base. The Department may vest the title to the facilities and equipment with these three contractors.

NATIONAL GUARD AND RESERVE EQUIPMENT

The conference agreement is as follows:

scout modifications, field artillery ammunition support vehicles (FAASVs), KC-135R reengining, night vision devices and driver's night viewers, heavy equipment transport system (HETS), paladin, M-1A2 tanks, CH-47 FADEC, medium truck extended service programs (ESP), F-16 C/D onboard oxygen generating system field installation and evaluation by the Air National Guard, M-270 launcher mechanical systems (ILMS), high mobility multipurpose wheeled vehicles, LITENING targeting and navigation pods, all-terrain cranes, modular airborne fire fighting system units, CH-47 internal crash

worthy fuel cells, back scatter truck inspection systems, night vision equipment, CH-47 ICH aircraft, commercial industrial equipment, high speed dirt compactors, AH-64 combat mission simulators, high mobility trailers for HMMWVs, palletized loading systems, heavy expanded mobility tactical truck wreckers, M109A6, automatic building machines, air defense alerting device systems, interactive simulators, master cranes,

deployable universal combat earth movers, HEMTT wreckers, and AN/VR-102 Radios.

NATIONAL GUARD AND RESERVE AIRCRAFT

The conferees agree to provide \$288,000,000 specifically for the acquisition and modernization of the following aircraft to support Reserve and National Guard missions:

T-39 replacement aircraft for the Marine Corps Reserves	\$10,000,000
C-130J aircraft for the Air National Guard (4)	226,000,000
KC-135R engine kits for the Air National Guard	52,000,000

ARMY HIGH PERFORMANCE COMPUTING
RESEARCH

The conferees urge the Army to provide within the defense research sciences program element, \$750,000 to hook up four historically-black colleges with the Army High Performance Computing Center in Minneapolis and \$500,000 for work stations at these colleges to optimize the use of the new computing facilities which were made available through the fiscal year 1997 defense appropriations act.

ENVIRONMENTAL QUALITY TECHNOLOGY

The conferees agree to provide \$4,000,000 in the Army Environmental Quality Technology line only to develop computer-based land management modeling projects designed to help reduce time and costs associated with recovery of military training

areas. The conferees expect the U.S. Army Construction Engineering Research Laboratory to prudently manage this additional funding to achieve maximum results.

MEDICAL TECHNOLOGY
VOLUMETRICALLY CONTROLLED
MANUFACTURING

The conferees have provided \$2,500,000 only for the development of a prototype artificial hip using multidimensional volumetrically controlled manufacturing of synthetic materials.

MEDICAL ADVANCED TECHNOLOGY
COLLABORATIVE EFFORTS IN TELEMEDICINE

The conferees recognize the need to continue establishment of collaborative efforts for design of a telemedicine trauma/emergency medical services system to provide necessary diagnostic and treatment inter-

ventions and improve medical outcomes. This effort should include participation by appropriate DoD agencies and public/institutions.

PROSTATE DIAGNOSTIC IMAGING

The conferees are concerned about the quality and efficacy of prostate diagnostic imaging, and believe that prostate cancer detection and treatment would greatly benefit from more accurate and refined equipment and procedures. The conferees direct the Army to establish a public/private research project in coordination with appropriate Government agencies and private institutions to explore promising technologies for improvement of prostate diagnostic imaging. The conferees provide \$5,000,000 only for this purpose in the Medical Advanced Technology

line. The conferees expect funding management to be accomplished by Walter Reed Army Medical Center.

DIAGNOSTIC IMAGING TECHNOLOGY

The conferees recognize the excellent work being conducted at Walter Reed in diagnostic imaging technology and direct that a Diagnostic Imaging Technology Center of Excellence be established at Walter Reed Army Hospital and that the Army be the lead agent in this endeavor. All DoD efforts in this area should be coordinated with the center. In this vein, the conferees are extremely encouraged with the potential benefits of the Volume Angio CAT (VAC) and have provided an additional \$4,000,000 to continue efforts on this promising imaging technology.

PERISCOPIC MINIMALLY-INVASIVE SURGERY

The conferees agree to provide \$3,000,000 in the Army Medical Technology line only to

pursue further development of minimally-invasive surgery techniques. The conferees believe greater understanding of this cutting-edge technology could result in significant benefits for US armed forces.

AVIATION ADVANCED TECHNOLOGY

OUTRIDER TUAV

The conferees agree to provide \$45,000,000 to continue the development, testing and evaluation of the Outrider tactical unmanned aerial vehicle (TUAV). The conferees direct the Secretary of the Army submit an acquisition strategy to the Committees on Appropriations of the House and Senate after the user-testing and evaluation are completed.

MUNITIONS STANDARDIZATION, EFFECTIVENESS AND SAFETY

The conferees are aware of the need to close and clean up the open pit burning ground currently being used to dispose of ex-

plosive waste at Picatinny Arsenal. The Army has concluded that additional funds are needed to complete the construction of the Explosive Waste Incinerator and the conferees agree to provide \$1,100,000 only to finish this project.

MATTRACKS

The conferees urge the Army to begin development testing of the MATTRACKS track system within available research, development, test and evaluation funding. The MATTRACKS track system, which has been control tested by the Army and Marine Corps with excellent results, appears to have great value for military uses particularly mine clearing efforts.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

The conference agreement is as follows:

	Budget	House	Senate	Conference
RESEARCH DEVELOPMENT TEST & EVAL NAVY:				
IN-HOUSE INDEPENDENT LABORATORY RESEARCH	15,834	14,683	15,834	14,683

AIRCRAFT TECHNOLOGY

The conferees direct that the Navy Vectored Thrust Ducted Propeller (VTDP) compound helicopter program focus the current VTDP technology development program on utilization of the H-60 helicopter as the demonstration platform. The conferees further direct that from within available funds \$200,000 is only for the Navy's H-60 program office (PMA-299) to manage the VTDP program and all current and prior year funds appropriated for this program.

MATERIALS, ELECTRONICS, AND COMPUTER TECHNOLOGY

The conferees agree to provide \$3,000,000 for Terfenol-D, which is used in Navy sonar programs. The conferees direct that this amount shall be available only to allow the Navy to achieve further cost reductions in the application of a magnetostrictive, iron/terbium/dysprosium alloy for new high performance sonar systems. The conferees further direct that such effort shall be undertaken through a partnership between any entity which has made a financial commitment and has experience in the production of such an alloy and the National Center for Excellence in Metal Working Technology.

NAVY AIRCREW EJECTION SEATS

The conferees believe the Navy must place greater emphasis on aircrew protection and safety, a problem that is of growing concern with the introduction of lighter-weight crew members. In fiscal year 1997, the Congress appropriated an additional \$5,000,000 to initiate Phase II of the Navy Aircrew Escape System (NACES) P3I program. The conferees are disappointed that this effort has not yet begun, particularly in light of technological advancements in propulsive stabilization and sensors that could substantially decrease the technical risk of resolving the safety shortcomings of the NACES. These same advances may also be applicable to making needed safety improvements in the GRU-7 seat flying in the EA-6B aircraft.

The conferees are aware of Navy plans to restructure the NACES P3I program. While voicing no objection at this time, the conferees expect that the restructured effort be conducted in a manner to include a flight demonstration of the life-saving benefits of these technologies to existing ejection seats, and that EMD planning for introduction to the fleet be completed. The conference agreement includes an additional \$6,000,000 only to accelerate the NACES P3I program to include demonstrated propulsive stabilization solutions.

NON-MAGNETIC, STAINLESS STEEL ADVANCED DOUBLE HULL WARSHIP DESIGN

The conferees note the technical challenge that the Navy faces in the design and manufacture of very large and complex structural systems that have historically been made of traditional steel materials but are now incorporating the use of more advanced materials like non-magnetic steels. The joining of the advanced double hull concept with non-magnetic steel offers the potential to reduce acquisition and operation costs and to improve survivability. The conferees direct the Navy to study this design on the DD-21 and to explore the opportunities available with existing Centers of Excellence that have capability in non-magnetic, stainless steel advanced double hull warship design.

DISTRIBUTED SURVEILLANCE SYSTEM

The conferees agree to provide \$43,448,000, of which \$7,800,000 shall be for the testing and packaging of the all-optical deployable system into an advanced deployable system (ADS) and at least \$7,000,000 shall be for the development of signal processing and detection algorithms for the ADS.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The conference agreement is as follows:

[In thousands of dollars]

ADVANCED SPACECRAFT TECHNOLOGY

The conferees recommend a Solar Thermionic Orbital Transfer Vehicle program that balances designing the flight demonstrator with further development of key technologies including thermionics, high temperature materials for power and propulsion, and direct gain propulsion utilizing lightweight inflatable collectors.

NATIONAL POLAR-ORBITING OPERATIONS
ENVIRONMENTAL SATELLITE SYSTEM
(NPOESS)

The conferees agree to provide \$34,004,000 for the National Polar-Orbiting Operational Environmental Satellite System (NPOESS), a decrease of \$17,500,000. The conferees direct the Deputy Under Secretary of Defense for Space (DUSD (Space)) to conduct an architectural review of the defense space-based meteorological mission area as part of the fiscal year 1998 program plan. DUSD (Space) is further directed to submit to the conferees a report detailing its plans to conduct the review no later than January 1, 1998.

SPACE BASED INFRARED SYSTEM (SBIRS)

The conferees are concerned that the Air Force has retained the present developer of the SBIRS high component as the overall system of systems engineer for the entire program. The conferees believe that the potential exists for conflict of interest since

the SBIRS high component developer will compete for the SBIRS low component of the program.

While the Air Force has taken certain measures to attempt to ensure the fairness of the SBIRS low competition, the conferees believe that it would be appropriate for the Under Secretary of Defense for Acquisition and Technology to review any Air Force implementation plan formulated to avoid conflicts of interest in the SBIRS low component competition. The conferees therefore, direct the USD (A&T) to certify to the congressional defense committees that the Air Force's "SBIRS Organizational Conflict of Interest Mitigation Plan for the SBIR Low Component Program" adequately safeguards the objectivity of the competition for the SBIR Low program. If it is determined that the Air Force's risk mitigation plan does not ensure a fair competition, the congressional defense committees shall be notified and provided such recommendations as the USD (A&T) determines are necessary to ensure a fair competition, protect proprietary data, and mitigate potential SBIR high component program developer bias. The certification shall be provided no later than March 31, 1998.

The conferees further direct that the Deputy Under Secretary of Defense for Space, DUSD (Space), review any final allocation of

requirements between the SBIRS high and low component to determine whether such allocations are justified on the basis of cost and performance. The conferees direct that the results of this review be provided to the congressional defense committees.

EVOLVED EXPENDABLE LAUNCH VEHICLE (EELV)

The conferees note that the Evolved Expendable Launch Vehicle (EELV) program is an important step in reducing the Department of Defense's space launch costs, and that two industry teams are now competing for a contract to develop an EELV. The conferees believe that the Air Force should require that a successful bidder share in the development cost of the EELV, system. In addition the conferees expect that the Air Force will recognize the commercial requirements of the EELV and allow industry to develop system solutions to meet these needs. Therefore, the conferees agree to the House language which directs the Air Force to include as significant factors in the EELV acquisition the degree to which the competitive proposals include the commercial needs of the U.S. launch vehicle industry as well as government compensation and cost recoupment offers from the EELV competitors. The Under Secretary of Defense for Acquisition and Technology is also directed to provide the congressional defense committees not later than June 1, 1998, a revised

EELV Single Acquisition and Management Plan (SAMP) that addresses these concerns.

JOINT AIR-TO-SURFACE STANDOFF MISSILE
JOINT STANDOFF LAND ATTACK MISSILE

The conferees have provided a total of \$171,021,000 for the Joint Air-to-Surface Standoff Missile (JASSM)/Joint Standoff Land Attack Missile (JSLAM) program. Within the JASSM program element, the conferees direct that the first priority for the available funds shall be to maintain competition on the program and to avoid an early decision to select a single contractor. The funds within this program element are provided to continue the JASSM program through completion of the Analysis of Alternatives (AOA).

The conferees have also provided \$43,021,000 in a JSLAM program element. The conferees direct that none of the JSLAM funds may be obligated until the Secretary of Defense notifies the congressional defense committees regarding the acquisition strategy the Defense Department chooses to pursue based on the results of the JASSM AOA. The conferees direct that the JSLAM program element funds shall be available for the option recommended by the Secretary of Defense.

CRUISE MISSILE DEFENSE

The conferees are concerned about the growing threat posed by advanced air-launched and surface-launched cruise missiles and urge the Department to pursue an enhanced capability on the AWACS to de-

tect, track, and identify cruise missiles. The conferees direct the Air Force to provide a report on their specific schedule and funding plans for continued development of this needed capability.

NATO JSTARS

The conferees agree that none of the funds can be reprogrammed out of the NATO JOINT STARS program element without the prior approval of the congressional defense committees. The conferees agree to place no further restrictions on these funds.

RESEARCH, DEVELOPMENT, TEST AND
EVALUATION, DEFENSE-WIDE

The conference agreement is as follows:

	Budget	House	Senate	Conference

MISSILE FEASIBILITY ASSESSMENTS

The conferees note the past success achieved by the Countermeasures Hands-On Program (CHOP) and Hands-On Threat Demonstration (HTD) programs in assessing the feasibility of countermeasures to ballistic missile defense programs and cruise missile threats to the United States. The conferees believe a similar program to assess the feasibility of the development of long-range ballistic missile capabilities by rouge or other states will be useful in assessing potential missile threats to the United States. Accordingly, the conferees provide \$2,400,000 to the CHOP program from the amount provided for National Missile Defense for the initiation of an effort to demonstrate the feasibility of building and testing a long-range ballistic missile using open source literature and materials likely to be available to potential rouge nations. The effort shall be conducted using the same approach employed by the CHOP and HTD programs.

Furthermore, of the amount provide for National Missile Defense Demonstration and Validation (Program Element 0603871C), not less than \$150,000 shall be provided to the HTD Program for completion of cruise missile flight testing.

ELECTRONIC COMMERCE RESOURCE CENTERS
(ECRC'S)

The conferees direct that the establishment of additional ECRC sites shall be based on a Department of Defense analysis of regional needs, with priority given to States not currently having such a facility already established.

ECRC PERFORMANCE MEASURES

The conferees believe that significant cost saving benefits will be derived from the government adopting and using electronic commerce (EC) and electronic data interchange (EDI) in its business functions. The conferees view Electronic Commerce Resource Centers as a key element in advancing the Depart-

ment's process of transferring its business process from a paper to electronic medium, especially as this process is implemented with small and medium size businesses. The conferees are aware that it has proven difficult to assess how effective the ECRC concept has been given the many variables that affect the pace and efficiency at which DoD and the rest of the federal government convert from paper-based management functions to EC/EDI. Nevertheless, the conferees believe better program performance measures must be established for the ECRC program to help implement a policy of making the ECRC's essentially self-sustaining over a five-year period to measure their comparative value to DoD, and to evaluate methods to improve EC outreach, education and training, and technical support to both government and industry. The Department is directed to work with the ECRC integrators to develop a set of performance indicators (metrics) for the ECRCs that (1) focus on their ability to become self-sustaining, (2) prove their value in the market place, (3) encourage them to support and aid the government effort to develop FACENET or other forms of electronic commerce, (4) measure their value to DoD relative to one another, (5) keep their operating costs low, (6) track the number of instances in which a customer adopts or expands use of EC/EDI, and (7) measure customer satisfaction.

ATMOSPHERIC RESEARCH

The conferees understand that the Ballistic Missile Defense Organization has expressed interest in the development of a pan-oceanic environmental and atmospheric research laboratory. The conferees would encourage the Defense Department to allocate funding within BMDO to initiate this program during fiscal year 1998. The conferees expect to address additional funding for this program in fiscal year 1999.

MATERIALS AND ELECTRONICS TECHNOLOGY

The conferees have provided \$5,000,000 to be used only for 3-D multi-chip module (MCM) electronics. These funds will be used to develop and demonstrate key technologies behind a packaging concept that uses a stacked MCM approach to reduce interconnect length and increase physical connectivity between layers of electronics.

SUPPORT TECHNOLOGIES—BMDO

The conferees direct that the \$13,000,000 provided for the Russian-American Observational Satellites (RAMOS) program shall be available only for the RAMOS program.

VTOL UAV TECHNOLOGY

The conferees agree to provide \$8,000,000 to continue the development of a Vertical Takeoff and Landing (VTOL) unmanned aerial vehicle (UAV) and to initiate a demonstration program of future VTOL UAV technology, which should include demonstrating a stopped rotor, high speed, and reaction driven concept. The development and acquisition strategy for this demonstration program should be coordinated with the Navy Science and Technology Requirements Office.

ENDURANCE UAVS

The conferees agree to a \$9,000,000 reduction for HAE support. This reduction shall not be applied against the development and testing for the two HAE common ground segments.

UNIVERSITY AFFILIATED RESEARCH CENTERS
(UARCS)

The conferees believe that a UARC should be defined as a university receiving more than \$10,000,000 in sole source non-competitive contracts.

INSTITUTE FOR DEFENSE ANALYSES

The conferees do not agree to place restrictions on funds for the Institute for Defense Analyses proposed by the House, since the Defense Department has recently indicated

its willingness to provide classified tactical aircraft IDA studies to the Appropriations Committees.

DEVELOPMENTAL TEST AND EVALUATION,
DEFENSE

The conference agreement is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
DEVELOPMENTAL TEST & EVAL. DEFENSE:

ECONOMIC ASSUMPTIONS			-2,000	-2,000

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget	House	Senate	Conference
DEVELOPMENTAL TEST AND EVALUATION, DEFENSE:				
CENTRAL TEST AND EVALUATION INVESTMENT	131,353	131,353	116,353	123,353
PROGRAM REDUCTION			-15,000	-8,000
ECONOMIC ASSUMPTIONS			-2,000	-2,000

NATIONAL ASSESSMENT GROUP (NAG)

The conferees recognize the critical requirement for this activity and its mission as outlined in its charter, and direct that, at the beginning of fiscal year 1998, \$4,654,973 in

Defense, Test and Evaluation Program Element 0605804D be transferred to Assessment and Evaluation Program Element 0604942D. This transfer is required to establish the National Assessment Group as a fully operational and autonomous organization. It is

[In thousands of dollars]

directed that outyear funding for NAG be included in PE 0604942D.

OPERATIONAL TEST AND EVALUATION,
DEFENSE

The conference agreement is as follows:

	Budget	House	Senate	Conference
OPERATIONAL TEST & EVALUATION, DEFENSE:				
OPERATIONAL TEST AND EVALUATION	13,187	13,187	21,187	17,187
LIVE FIRE TESTING	10,197	19,497	10,197	14,197

[In thousands of dollars]

	Budget	House	Senate	Conference
Operational Test and Evaluation	13,187	13,187	21,187	17,187
Operational field testing			+8,000	+4,000
Live fire testing	10,197	19,497	10,197	14,197
Simulation and modeling		+9,300		+4,000

OPERATIONAL TEST AND EVALUATION

The conferees agree to provide \$4,000,000 for operational field assessments. However, the conferees are concerned about the widely differing views within the Department of Defense on this issue. To clarify this situation, the conferees direct the Joint Staff Director for Force Structure, Resources and Assessment (J-8) to conduct a thorough review of

all aspects of operational field assessments. The review should assess past and current efforts, potential duplication of existing assessment capabilities, users of the assessment program, and the roles of possible participants, to include OT&E, the Services, NRO, DIA, and others as appropriate.

The report is to be provided to the Committees on Appropriations by March 30, 1998.

The conferees direct that the funds provided for operational field assessments shall not be obligated until the required report is provided to Congress.

TITLE V—REVOLVING AND
MANAGEMENT FUNDS

The conferees agree to the following amounts for Revolving and Management Funds programs:

	Budget	House	Senate	Conference
Defense Working Capital Funds	33,400	971,942	871,952	971,952
Military Commissary Fund, Defense	938,552			
National Defense Sealift Fund	1,191,426	1,199,926	516,126	1,074,948
Total, Revolving and Management Funds	2,163,378	2,171,878	1,388,078	2,046,900

DEFENSE WORKING CAPITAL FUNDS

The conferees agree to provide \$971,952,000 for the Defense Working Capital Fund. The conferees agree to merge funding for operations of the Defense Commissary Agency into the Defense working capital fund rather than including such funding in a separate account.

NATIONAL DEFENSE SEALIFT FUND

The conferees agree to provide \$1,074,948,000. This includes reductions of \$131,000,000 for cost adjustments on previous LMSR conversion ships which can be deferred until fiscal year 1999 and \$478,000 of excess advance procurement funds for new LMSR construction. The agreement also in-

[In thousands of dollars]

cludes \$15,000,000 only for procurement of lighterage.

TITLE VI—OTHER DEPARTMENT OF
DEFENSE PROGRAMS

The conference agreement is as follows:

	Budget	House	Senate	Conference
Defense Health	10,301,650	10,309,750	10,317,675	10,369,075
Chemical Agents and Munitions Destruction, Defense	620,700	595,700	609,700	600,700
Drug Interdiction and Counter-Drug Activities, Defense	652,582	713,082	691,482	712,882
Office of the Inspector General	138,380	142,980	135,380	138,380

Holloman Air Force Base			+7,000	+5,000
Restoration of Army O&M (VAC)				+8,000
Economic Adjustment				-20,000

BREAST CANCER

The conferees have provided a total of \$160,000,000 only for breast cancer research and related treatment. Of that amount \$135,000,000 is for the Army's peer-reviewed research program. The conferees are very encouraged with the administration of this program and with the composition of, and strategy developed by the program's peer review panel and believe this should be maintained. The remaining \$25,000,000 is to be used to improve access to care for military members and their families.

TELEMEDICINE

The conferees agree that pursuant to the GAO report "Telemedicine: Federal Strategy is Needed to Guide Investments", DoD Health Affairs should contract with an outside organization, which has previously demonstrated the ability to assess and plan strategic telehealth initiatives, to enumerate current telehealth efforts and recommend coordination activities among the tri-services to prevent duplication and enhance "dual use" telecommunications for health care delivery, education and related public sector applications. This assessment should also include the worldwide computer-based patient record as a necessary component of telehealth. The resulting report and recommendations shall be provided to the congressional defense committees by April 1, 1998.

NATIONAL REHABILITATION HOSPITAL

The conferees are pleased with the success of the cooperative effort between the Department of the Army and the National Rehabilitation Hospital at the Assistive Technology Research Center. Through its efforts, individuals with disabilities are benefiting from technology advances previously limited to the military. The conferees urge that this effort be continued.

MILITARY RETIREE HEALTH CARE

The conferees are encouraged by the recent decision to implement the Medicare subvention demonstration, to provide health care for Medicare-eligible military retirees who are not currently covered under TRICARE. The conferees believe a properly tailored subvention demonstration, coupled with continued assessment of the TRICARE program, is essential to develop the data needed to evaluate the success, and adequacy, of military managed care programs. The conferees understand the Department is focusing its efforts in the first phase of the Medicare subvention demonstration on rapid implementation. However, this emphasis may not provide a true picture of the relative merits of the subvention program, as it may preclude analysis of a representative sampling of beneficiary populations (such as those in rural areas, or in regions with a high density retiree population).

The conferees believe the Department should rapidly move towards a second phase Medicare subvention demonstration, which takes into account such factors and will give the Department a more diverse sampling of data and one more representative of the actual challenges facing the military health care delivery system. The Department is directed to submit a report to the congressional defense committees not later than March 1, 1998, on its plans for phase one of the Medicare subvention demonstration as well as its plans regarding subsequent demonstration phases.

While encouraged by the advent of the subvention effort, the conferees note that alternative options, such as providing the Federal Employees Health Benefits Plan (FEHBP) to Medicare-eligible military retirees, exist and could serve to further ameliorate the problems caused by TRICARE "lock-out." In response to a directive in last year's Defense

Appropriations Act to assess the FEHBP option, the Department indicated there may be some merit in conducting a limited FEHBP demonstration program. The conferees believe such an effort, if analyzed in conjunction with TRICARE and the Medicare subvention options, would provide the Department of Defense, other affected Federal agencies, and Congress with a more complete picture of the potentially available means for providing health care for the over-65 military beneficiary population. Therefore, the conferees direct the Secretary of Defense, in consultation with the Director of the Office of Personnel management, to submit a legislative proposal for Congressional consideration next year to implement a limited FEHBP demonstration program. The program plan should cover only Medicare-eligible beneficiaries and include cost estimates that are based on current beneficiary participation data.

DNA DATA BANK

The conferees strongly support Department of Defense policies that protect information in its "DNA Data Bank" for soldiers, as outlined in its April 2, 1996 policy memorandum. Because this pool of genetic data is one of the largest in the country, the conferees are concerned about the possibility for health, life, and disability insurers to use this data for inappropriate and discriminator purposes. The conferees direct the Department of Defense to continue to promote policies that provide the utmost protection of the genetic information in the "Armed Forces Repository of Specimen Samples for the Identification of Remains."

CHEMICAL AGENTS AND MUNITIONS
DESTRUCTION, DEFENSE

The conference agreement is as follows:

[In thousands of dollars]

	Budget	House	Senate	Qty	Conference

Non-Intrusive Inspection Systems RDT&E	16,013	11,413	16,013	16,013
National Guard	132,358	132,358	157,358	149,358
Regional Police Information System			3,000	3,000
Demand Reduction	83,238			83,738
Young Marines Program	500	1,000	500	1,000
Total	652,582	713,082	691,482	712,882

GULF STATES INITIATIVE

The conferees agree with the direction contained in House report 105-206 and provide \$16,166,000 for the Gulf States Initiative (GSI). The conferees have funded this program in the Drug Interdiction account, but direct that management of this program, with the exception of the Regional Counterdrug Training Academy, be transferred to the Joint Military Intelligence Program (JMIP). The conferees direct the Coordinator for Drug Enforcement Policy and Support to provide \$13,135,000 to the JMIP to manage and operate the GSI in fiscal year 1998.

CIVIL AIR PATROL

The conferees agree to provide \$2,800,000 above the budget request for the Civil Air

Patrol, but have provided those funds in the Operation and Maintenance Title.

HIDTA CRACK HOUSE DEMOLITION

The conferees agree to provide \$2,300,000 as recommended by the House for Crack House Demolition and related missions. The conferees are concerned about the physical protection of National Guard personnel during demolition missions and expect the Guard and local law enforcement agencies to arrange for protection prior to the execution of these missions. The conferees are also concerned about the status of the properties to be demolished. The conferees understand that the National Guard intends to require legal certification from the lead public agency that titles to the structures to be demol-

ished are controlled by the public agency, that hazardous materials are not present and that the appropriate law enforcement agency has certified the sites as drug distribution centers.

OFFICE OF THE INSPECTOR GENERAL

The conferees agree to provide \$138,380,000 for the Office of the Inspector General. Of this amount, \$136,580,000 shall be for operation and maintenance activities and \$1,800,000 shall be for procurement.

TITLE VII—RELATED AGENCIES

The conferees agree to the following amounts for Related Agencies:

	Request	House	Senate	Conference
Intelligence Community Management Account	122,580	125,580	122,580	121,080
National Security Education Trust Fund	2,000	2,000	2,000	2,000
Central Intelligence Agency Retirement and Disability System Fund	196,900	196,900	196,900	196,900
Payment to Kaho'olawe Island Conveyance, Remediation, and Environmental Restoration Fund	10,000	10,000	10,000	35,000

[In Thousands of Dollars]

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

Details of the adjustments to this account are addressed in the classified annex accompanying this report.

TITLE VIII—GENERAL PROVISIONS

The conference agreement incorporates general provisions of the House and Senate versions of the bill which were not amended. Those general provisions that were amended in conference follow:

The conferees included a general provision (Section 8005) which amends Senate language concerning transfer authority and which provides \$65,000,000 for termination costs of the Reserve Mobilization Income Insurance Program.

The conferees included a general provision (Section 8008) providing multiyear procurement authority for certain programs.

The conferees included a general provision (Section 8024) which amends Senate language earmarking funds for Indian Financing Act Incentives and extends eligibility to contrac-

tors participating in the test program established by Section 854 of Public Law 101-89.

The conferees included a general provision (Section 8034) earmarking funds for the Civil Air Patrol.

The conferees included a general provision (Section 8035) governing the activities of defense federally funded research and development centers (FFRDCs).

The conferees included a general provision (Section 8043) which amends a Senate provision offsetting funds provided to meet flying hour shortfalls. The conference agreement contains significant increases over the budget request to meet shortfalls in flying hour and spare parts funding, depot maintenance, and other readiness requirements of both the Active and Reserve components. Section 8043 provides offsets for these critical readiness programs through reductions, on a pro-rata basis, to each activity funded in titles III and IV of the conference agreement.

The conferees included a new general provision (Section 8048) which offsets funding provided for National Missile Defense (NMD). In title IV, the conference agreement in-

cludes an additional \$474,000,000 over the President's request for NMD, responding to a request from the Secretary of Defense after significant shortfalls were discovered in programmed funding. Section 8048 offsets the additional funds provided in the conference agreement for NMD by a like reduction, on a pro-rata basis, to each activity funded in title IV.

The conferees included a general provision (Section 8056) which amends Senate language regarding the mitigation of environmental impact of DoD activities on Indian lands.

The conferees included a general provision (Section 8061) which amends House language concerning the increase or transfer of DoD personnel assigned to headquarters activities and field operating agencies.

The conferees included a general provision (Section 8062) which amends Senate language authorizing intelligence activities.

The conferees included a general provision (Section 8064) which amends House and Senate language recommending rescissions.

Grand total	- 81,000,000	- 54,700,000	- 176,100,000

The conferees have rescinded a portion of the fiscal year 1997 funds provided for the Airborne Sensors for Ballistic Missile Tracking project. The conferees direct that the first priority for the remaining funds shall be to accomplish any valid technology transfer to Airborne Laser (ABL) program.

The conferees included a general provision (Section 8086) which amends Senate language making funds available for Reserve peacetime support to active duty and civilian activities.

The conferees included a general provision (Section 8090) which amends House language for ship cost adjustments requested by the Navy and program adjustments for the F-22. It also includes transfer of funds formerly for prior year ship construction projects to the RDT&E appropriation. The conferees direct that \$9,500,000 within the Research, Development, Test and Evaluation, Navy appropriation be used only in the Advanced Transition Technology program for the integration of advanced propulsion technology within a composite structure and mission capable communications to be used for multi-mission patrol craft.

The conferees included a new general provision (Section 8097) to provide funding for the refurbishment of the USS Intrepid.

The conferees included a general provision (Section 8105) which amends House language reducing funding provided to the Operation and Maintenance accounts of the Army, Navy, and Air Force to compensate for excess inventory.

The conferees included a general provision (Section 8106) which amends House language concerning savings from changes to law proposed by the House National Security Com-

mittee and the Senate Armed Services Committees on warranties in contracts for the acquisition of defense weapon systems. The conferees agree to a reduction of \$75,000,000 rather than \$50,000,000 as proposed by the House.

The conferees included a general provision (Section 8109) which amends Senate language concerning a pilot project within the Maritime Technology Program to make technical corrections.

The conferees included a general provision (Section 8114) which amends House language restricting the use of Research and Development funding for the procurement of end-items.

The conferees included a general provision (Section 8117) which prohibits the Department from entering into or renewing a contract with an entity unless the contractor has submitted an annual report to the Department of Labor concerning the employment of veterans. The conferees express their understanding that under current regulations, the annual report for 1997 must be submitted not later than September 30, 1998.

The conferees included a general provision (Section 8121) which amends Senate language earmarking funds to demonstrate expanded use of multi-technology automated reader cards.

The conferees included a general provision (Section 8122) which amends Senate language requiring a report on all anticipated costs to the United States for the admission of the Czech Republic, Poland and Hungary to NATO.

The conferees included a general provision (Section 8123) which amends Senate language concerning reciprocal trade agreements and

the conditions under which the Secretary of Defense may issue waivers to the Buy America Act.

The conferees included a new general provision (Section 8127) which rescinds \$100,000,000 from funds appropriated in previous Defense Department Appropriations Acts which are expected to expire at the end of fiscal year 1998.

The conferees included a new general provision (Section 8128) which allows the Secretary of Defense to provide funds for operational costs associated with the Lexington Bluegrass facility.

The conferees included a new general provision (Section 8129) to facilitate contractor teaming for construction of submarines. It is required by the Navy in order to implement the President's budget request and appropriation in this Act for funding for the New Attack Submarine.

The conferees included a new general provision (Section 8130) establishing the National Security Strategy Study Group.

The conferees included a new general provision (Section 8131) establishing a panel to review the need for continued production of the B-2 bomber.

The conferees included a general provision (Section 8132) which amends House language restricting the use of funds for the U.S. military deployment in Bosnia after June 30, 1998. The amended provision denies the use of funds in the Defense Appropriations Act, 1998, for the deployment of U.S. armed forces in the Republic of Bosnia and Herzegovina after June 30, 1998, unless the President, after consultation with the bipartisan leadership of the Senate and House of Representatives, transmits to the Congress not later

than May 15, 1998 a certification that the continued presence of United States armed forces is required in order to meet the national security interests of the United States. Any such certification shall specify the following aspects of any deployment beyond June 30, 1998:

(1) The reasons why such deployment is in the national interest;

(2) The number of United States military personnel to be deployed in and around the Republic of Bosnia and Herzegovina and the former Yugoslavia;

(3) The expected duration of any such deployment;

(4) The mission and objectives of United States military forces deployed in and around the Republic of Bosnia and Herzegovina and the former Yugoslavia; and

(5) The exit strategy for United States forces engaged in such deployment;

(6) The costs associated with any deployment beyond June 30, 1998; and

(7) The impact of such deployment on the morale, retention, and effectiveness of U.S. forces;

Pursuant to Section 8132, concurrent with the submission of any such certification, the President shall submit to the Congress a fiscal year 1998 supplemental appropriations request for such amounts as are necessary for any continued deployment beyond June 30, 1998.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1998 recommended by the Committee of Conference, with comparisons to the fiscal year 1997 amount, the 1998 budget estimates, and the House and Senate bills for 1998 follow:

New budget (obligational) authority, fiscal year 1997	\$242,389,726,000
Budget estimates of new (obligational) authority, fiscal year 1998	243,923,541,000
House bill, fiscal year 1998	248,335,303,000
Senate bill, fiscal year 1998	247,184,859,000

REGARDING CANADIAN BORDER BOAT LANDING PERMITS

The SPEAKER pro tempore [Mr. GUTKNECHT]. The pending business is the question de novo of suspending the rules and passing the bill, H.R. 2027.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. SMITH] that the House suspend the rules and pass the bill, H.R. 2027.

The question was taken.

Mr. CONDIT. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The Chair announces that this will be followed by a series of 5-minute votes.

The vote was taken by electronic device, and there were—yeas 412, nays 5, not voting 16, as follows:
